Important – Planning permission & notices of consent

Compliance with conditions

- Your planning approval or consent is attached. It will contain conditions that you must comply with.
- Please read the conditions and understand their requirements and restrictions, for example submission and approval of details or measures to protect trees.
- Some conditions will require action before you start development and it is imperative that you seek to have these discharged before any work commences.
- Whilst every effort has been made to group conditions logically, it is your responsibility to ensure that you are aware of the requirements and/or restrictions of all conditions.
- If you fail to comply with the conditions this may result in a breach of planning control and this may lead to enforcement action.
- Failure to comply with conditions may also result in the development not being lawful.
- It is in your interests to demonstrate that conditions have been complied with. Failure to do so may cause difficulties if the property is sold or transferred.
- A fee is payable for each request to discharge conditions.
- For advice on any of these matters, please contact Planning, Manchester City Council, PO Box 532, Town Hall, Manchester M60 2LA or email planning@manchester.gov.uk

This permission does not grant approval under Building Regulations.

Street Naming & Numbering Requirements
Manchester City Council is responsible for allocating street naming and numbering within Manchester for new developments or property conversions. Individuals or businesses are not permitted to allocate their own property numbers, building or street names.

If your development includes the creation of new dwellings (either new build or conversion of existing buildings), creation of new commercial properties or the subdivision of existing properties you must ensure that you request new or changes to addresses through us so they can be officially allocated and registered in accordance with the Public Health Act 1925 Sections 17-19 & Greater Manchester Act 1981 Section 22.

Failure to do this may result in difficulties for the developer/occupier when requiring services such as connections to utilities, phone lines and postal services and may delay your development.

You can apply online at the following address:
http://www.manchester.gov.uk/info/100011/roads_parking_and_transport/1988/naming_and_numbering_of_houses_buildings_streets_and_roads/2

The following measures are considered essential to secure the ATM, as well as protect its users/replenishers and it is recommended that they are conditioned as part of any approval:

Lighting should be provided to the area around the proposed ATM to an adequate and uniform level, so as not to allow any areas of pooling/shadowing.

Defensible space ground markings (e.g. 1m2 painted area, change in surface texture, metal studs within paving etc.) should be employed and maintained at the front of the ATM to indicate that only one user at a time may enter the space.

The proposed ATM should be protected by a closed circuit television system that should view the area and the users of the ATM, but not the ATM keypad itself.

The ATM should be protected by anti-ram bollards (to LPS 1246 or BS PAS 68??) or similar to deter against ram-raid type attacks.

Replenishment of the ATM should be carried out from a secure area inside the host building / while the public are excluded from the building. A dedicated parking area should be provided for the cash-in-transit vehicle within the immediately vicinity of the ATM.

The ATM itself must be securely anchored, alarmed and should include a banknote degradation system or similar - in-line with the attached ATM Security Working Group Guidelines document.

The ATM pod itself should be of robust construction and anchored securely, with a door certified to LPS 1175 SR2+ and fitted with a door viewer (fitted at a height of between 1200mm and 1500mm).

The ATM enclosure/pod and the security door should be certified to LPS 1175 Security Rating 3+ and fitted with a door viewer, fitted at a height of between 1200mm and 1500mm.
