

Unit L2 Ground Floor, 15 Symphony Park, Manchester M1 7FS - Boo Burger Refuse Strategy

The occupier considers that the following waste will be produced:

Waste type: **General Waste**

Container size: 1100 Litre

Container type: Wheeled Bin

Max container weight: 50kg

Forecasted weekly use (containers/max weight): 4 / 200kg

Waste type: **Mixed Recycling**

Container size: 1100 Litre

Container type: Wheeled Bin

Max container weight: 50kg

Forecasted weekly use (containers/max weight): 1 / 75kg

Waste type: **Organic Refuse**

Container size: 240 Litre

Container type: Wheeled Bin

Max container weight: 50kg

Forecasted weekly use (containers/max weight): 2 / 100kg

The Tenant will have various front of house and back of house (kitchen area) bin units. They would typically empty the bin units at the end of the shift, tie the bin bags and transfer the bags to the waste bins in the allocated bin store for the Unit. They would not store any extra waste in the store during the shift. If however, it became necessary, they would install a cage next to the back door to temporarily store full bin bags until the end of each shift, at which time they would be transferred to the allocated bin store for the Unit.

The waste will be transferred by the retail Tenant from their allocated bins store for the Unit to the allocated collection point for collection by a Licenced Waste Carrier. This will be arranged and managed by the Estate Management Company – Bruntwood Management Services Limited.
