John,

Rushford Court, Rushford Avenue - 133598/TCA/2022

I have visited the site and comment as follows:

The applicant has proposed to carry out the following pruning works:

- *T1 Lime – fell to ground level (poor condition with deep wound and decay to stem)*
- *T2 Lime – remove deadwood (in decline with major deadwood)*
- *T6 Ash – fell to ground level (early stages of Ash dieback)*
- *T7 Ash – fell to ground level (early stages of Ash dieback)*
- *T9 Ash – fell to ground level (has Ash dieback)*
- *T10 Sycamore – fell to ground level (60% of crown is dead)*
- *T11 Hawthorn – reduce away from street sign and crown lift over public footpath (public safety)*
- *T15 Lime – remove deadwood (significant deadwood in crown)*
- *T20 Lime – fell to ground level (poor suppressed tree in decline)*
- *G1 Mixed Broadleaf – fell to ground level (self-seeded trees in poor condition; many showing signs of Ash dieback; due to proximity to garages, there is significant risk of direct damage if they are allowed to remain and develop)*

I can confirm that although this work looks excessive, the specifications are absolutely warranted.

We would have no objection to the proposed routine, health and safety management of this site.

Kind regards

Rudi Farghaly
