Travel Information Pack Summary

The aim of this Travel Information Pack is to enable you to make informed decisions about your travel to and from your home.

This Travel Information Pack has been prepared for the following main reason:

'To enable you to use more sustainable ways of travelling to / from your home through more effective promotion of active modes. This will help reduce your impact on the environment.'

The achievement of the objective of the Travel Plan will bring about benefits at the following levels:

- ▶ You – through improved health, reduced stress and potential cost savings; and
- ▶ Your neighbours – by demonstrating a commitment to the Government's environmental priorities and setting an example to others.

Walking

Walking is a truly sustainable method of travel which provides you with predictable journey times and a range of physical and psychological benefits.

Your home is located within the city centre and therefore extremely well located for access to a wide range of day to day services and amenities by foot. The close proximity of your home to the city centre reduces your need to travel.

There are footways and pedestrian crossing points along the main desire lines in the area.

The following main local services and amenities are available within a short walk of your home:

- ▶ Co-op Bank – Cross Street – 1 minute walk
- ▶ We-Work Co-working Space – John Dalton Street – 1 minute walk
- ▶ Pharmacy – Booth Street – 2-3 minutes walk
- ▶ Tesco Express & ATM – Bow Lane – 3 minutes walk
- ▶ Post Office – Spring Gardens – 3-4 minutes walk
- ▶ Gym – Market Street – 6 minutes walk

* Walking times are approximate and based on an average walking speed of 80 metres per minute.

Cycling

Cycling is a healthy, low cost and environmentally friendly way to travel and keep you fit.

An on-street cycle lane is provided on Fountain Street approximately 330 metres east of your home. The National Cycle Network Route Route 6 is also located approximately 800 metres south of your home on Liverpool Road, which provides access to the wider cycle network.

You have access to an internal cycle storage room with space for 24 cycles. On-street cycle parking is also available near your home on King Street near the junction with Deansgate.

Manchester City Council offer cycle training courses through 'Bikeright'.

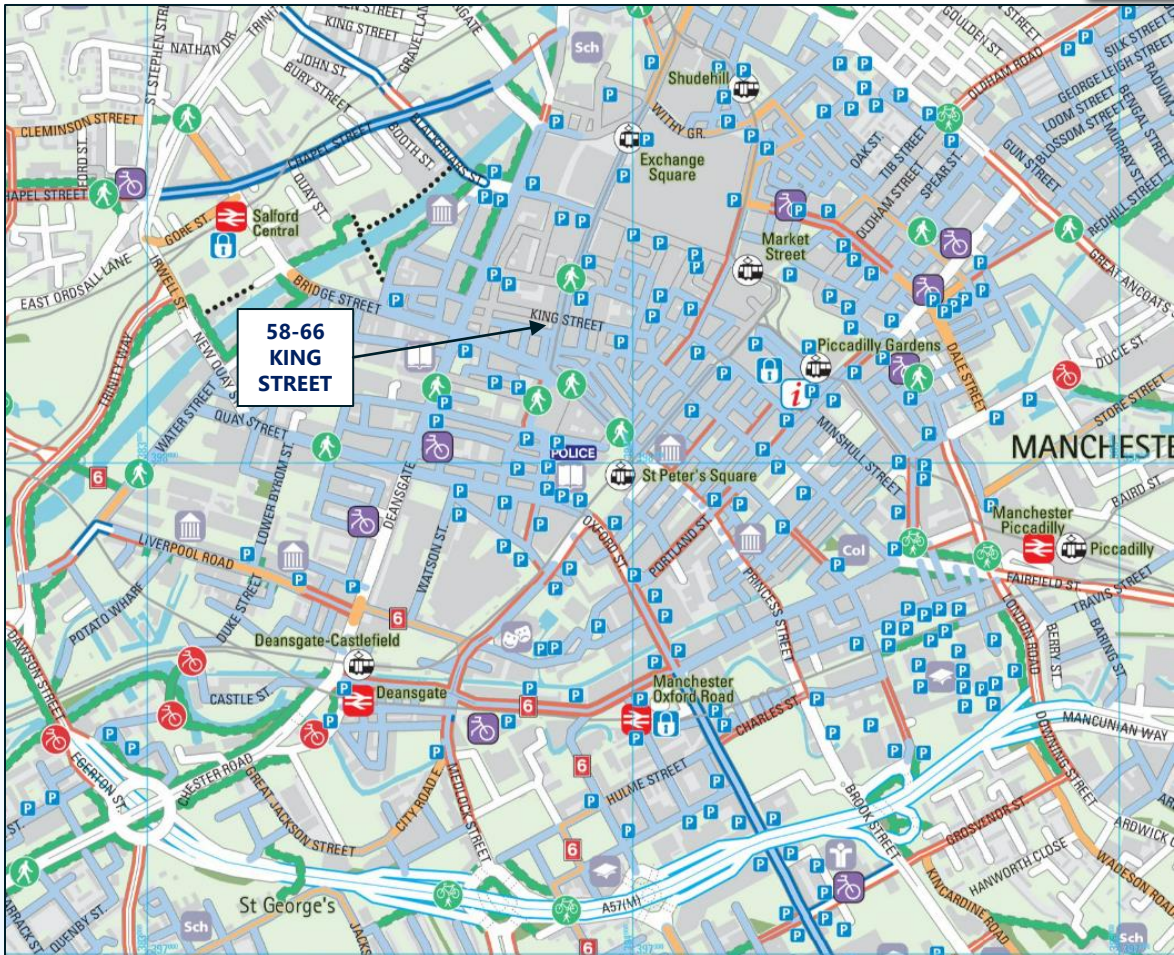

In addition, you could consider setting up a Bicycle User Group (BUG), where you can discuss cycling related matters with your neighbours.
