

WASTE MANAGEMENT PLAN

Proposal: The proposal is to use part of a parking to create a shop.

Address: 4 Mitre Road, Manchester, M13 0NU, United Kingdom

Date: 17/06/2022

Waste management

The building's existing bin area is at back of the property and forms part of the existing parking area. This area will still be maintained and used for the proposed development. The area reserved at the back in the proposed development will be for both Bin Area and a double car park. In other words, the existing bin storage area will be maintained at the back of the proposed shop. The bins will be wheeled out to the side alley on collection days. The bin truck has an access via the side alleyway and through a gate where the bins are kept. Please see pictures below.
