Dear Sirs,

Secured by Design, [REDACTED], Manchester

As an extension to an existing building, the security of this development is to some extent dependant on the existing structures and management protocols already in place, which have been largely successful in excluding intruders but have not been assessed or accredited with the SBD award. Whilst the current development is being built to SBD standards, it is not possible for it to be awarded SBD certification. However, following the site inspection carried out on [REDACTED], I confirm that the project has been carried out in accordance with the recommendations contained within the Crime Impact Statement ref: [REDACTED] prepared by Greater Manchester Police, and I consider this to be sufficient to discharge planning condition [REDACTED] of planning approval ref: [REDACTED]

Yours faithfully,

[REDACTED]

Michael Craig
Consultant
