

ID number	Common name	Latin name	Age	Height metres	DBH mm	Rating	Life expect	Approx work completion	Observations	Recommendations	Location
T1	Lime (Tilia cordata)		Mature	25	375	U	20	6 months	Below ground constraints due to proximity to wall which is leaning out into road	Remove tree and stump grind	Tea rooms
T2	Lime (Tilia cordata)		Mature	25	400	U	20	6 months	Below ground constraints due to proximity to wall which is leaning out into road	Remove tree and stump grind	Tea rooms
T3	Lime (Tilia cordata)		Mature	25	400	U	20	6 months	Below ground constraints due to proximity to wall which is leaning out into road	Remove tree and stump grind	Tea rooms
T4	Tree of heaven (Alanthus altissima)		Mature	22	375	B2	20	6 months	Below ground constraints due to proximity to wall which has minimal lean out into road, deadwood in canopy over road	Remove deadwood from over road	Tea rooms
G5	Beech (Fagus sylvatica)		Mature	25	900	A2	40	n/a	Potential huge below ground constraints	None	Tea rooms
G6	Holly (Ilex aquifolium), cypress (Cupressus spp)		Early maturity	5	100	B2	20	n/a	Small low level screening	None	Tea rooms
Key; Green text is High Quality and Value, Blue is Medium, Grey is Low and Red is Remove, see Appendix D - for Tree Categorisation Chart DBH Diameter at Breast Height. Life expect of 40 suggests 40 years plus											

Visual and occupancy
Good visual and moderate occupancy target being a cafe
Good visual and moderate occupancy target being a cafe
