John,

Flat 1 80 Dudley Road Manchester M16 8BR - 133716/TCA/2022

The applicant has proposed the following pruning works:

Willow

Located on front boundary adjacent to main road and car park area. Roots are lifting kerb stones. Multi stemmed from 0.5m with tight forks present but appear stable. Low branches over road.

Consider removal (6hrs). If retained, then crown lift to 5m over road and assess trip hazard in line with MSV policies and mitigate as required

Birch

Crown lift to 3m

I can confirm that we would have no objection to the proposed pruning works to the Birch and we would prefer the customer to explore the opportunity to retain the Willow by carrying out the work in accordance with Mr. Lally's pruning spec.

Kind regards
