Departure from Development Plan: No

Environmental Statement: Not required

Description of site/building
The proposed development site relates to former Manchester College of Building buildings at Welcomb Street (7 buildings), which are vacant. The buildings are a mix of single, two storey, and part single part two storey, with the main larger buildings comprising metal cladding. The site is located at the southern end of Welcomb Street, covers an area of 1.8ha. and comprises former college buildings and hard surfaced areas. There are currently two vehicular access points into the site from Welcomb Street. The existing boundary treatment to Medlock Court industrial estate to the west comprises high galvanised palisade fencing, with black powder coated paladin fencing to the eastern boundary with Norbury Court industrial estate. The frontage to the site to Welcomb Street comprises a small area of soft landscaping with shrubs and a tree, with a further grassed areas with trees to the north east of the main entrance to the former college.

Planning History
140741/DEM/2024- Prior Approval for demolition of former college buildings.
Land At Welcomb Street, Manchester. No objection 05.09.2024 .

142477/NMC/2025 - Non material amendment to planning permission referenced 139997/FO/2024 to allow the alteration of office entrance door and window type on the front (east facing) elevation to Unit 1, changes to the footprint of Unit 2 and the re-alignment of associated parking areas serving both units.
Land At Welcomb Street. Approved 08.04.2025

143012/NMC/2025 -Non-material amendment to planning approval reference 139997/FO/2024 to allow an alteration to the office entrance, from the North West corner of the building, to the North East corner of the building, with subsequent adjustments to the car parking layout.
Land At Welcomb Street. Approved 09.06.2025

Listed building: Not applicable

Conservation area: Not applicable

Tree Preservation Order: Not applicable

Description of area
The wider area comprises a mix of uses, including industrial units and warehouses to the north, west and east of the site, with an asphalt plant to the south of the site, and the Manchester to Glossop/Hadfield rail line beyond.

Previously approved development
Consent was sought for the erection of 4 no. two storey buildings with access and servicing arrangements, car parking, landscaping and associated works (Use Classes E(g) (ii), (iii), B2 and B8) following demolition of existing buildings and structures. The existing gross internal floorspace of the former College of Building premises at the site was 5,414 sq.m. As a result of the previously approved development, this figure would be increased by 1,570sq.m. to 6,984 sq.m (GIA) (7,407sq.m (GEA)) in total (Unit 1 - 713sqm); Unit 2 - 1,099sqm; Unit 3 - 2,735sqm; Unit 4 - 2,437sqm).

Each of the proposed units would be double height, with an open plan space and a tea point, toilet and accessible w.c.at ground floor level with a partial mezzanine above comprising ancillary office space.

The proposed buildings were designed to reflect the proposed uses and were to be formed of a combination of horizontal laid profiled metal cladding panel systems. The proposed colour palette comprised a mix of white, oyster grey and basalt grey cladding. The pitched roof comprised Trapezoid profile sheet metal cladding (Goosewing Grey). Guttering was to be coloured RAL 7012. Glazed areas were predominantly located at ground and first floor level near to main entrance and comprised polyester powder coated aluminium framed glazing. The proposed buildings were double height with shallow pitched roofs. The proposed buildings were located in proximity to the perimeter of the site with dedicated parking and servicing areas located in front or side of the proposed buildings, within the site.

Unit 1 and Unit 2 were situated on the west side of the site, built close to the southern boundary. These were accessed via existing arrangements through the industrial buildings situated to the west of the site in Medlock Court. Units 3 and 4 were to be constructed on the east side of the site, bordering the existing City Works Business Park. The existing access/egress point to the east of the Medlock Court units was to be repositioned and undergo road layout improvements to serve parking and service yards for Unit 3, with the other access being stopped up and redeveloped in connection with the proposal. Access to the proposed Unit no.4 was from the existing route serving Norbury Court industrial units to the east of the site. The service yards were surfaced with concrete, with car parking spaces being surfaced with dense bitumen tarmacadam. There were 43 existing parking spaces on site which would be increased in number to 98 (with 11 no. spaces for disabled users). 10 electric vehicle charging points were proposed with ducting to enable future provision to 20% of the overall parking provision (20 spaces).

The scheme also included the provision of 38 cycle spaces on internal wall mounted racks within each unit on the basis of Unit 1 (4 spaces), Unit 2 (6 spaces), Unit 3 (15 spaces), Unit 4 (13 spaces). A 24hour/7days a week operation was sought. The proposal also involved the installation of 2.4m black weldmesh fencing to the northwestern boundary of the site in proximity to the proposed Unit 1, to the majority of the curtilage of Unit 3, and to southern western boundary of Unit 4. The boundary to the asphalt plant to the south comprised the retention of the existing brick wall (which would be the subject of remedial works), together with the installation of 2.4m black weldmesh fencing in part to the rear of Units nos. 3 and 4. An additional substation was proposed to be located on the frontage of the site to the existing

substation. This was accessed via double gates from Welcomb Street. The existing substation to the north of the site was retained. Landscaped areas were proposed along the southern boundary, with the reconfiguration and additional planting to the existing soft landscaped area in front of the existing buildings.

A further non material change application (ref: 142477) sought to make amendments to the originally approved scheme. In respect of Unit One –The readjustment of the parking area serving Unit 1 was subsequently required the minor repositioning of the office door entrance, to allow suitable pedestrian and staff access to this building. The split dimension door arrangement and window to the main entrance were transposed. In regard to Unit Two – the length, and width of the unit were revised and the personnel door on north elevation omitted. The proposed internal width was 26.60m, rather than the 25.35m originally approved and the proposed internal length was 37.20m rather than the 39.00 m originally approved. The previously approved internal floor area of unit two was 988.65 sq.m, and the internal floor area was revised to be 989.52 sq.m. The width measured external proposed was 27.47m and the length measured externally was revised to 38.57m.

A subsequent non material change application (ref: 143012) sought to make amendments to the approved scheme to allow an alteration to the office entrance, from the North West corner of the building, to the North East corner of the building, with subsequent adjustments to the car parking layout

Description of development
Consent is sought to make the following revisions to the previously approved scheme.

- Re-location of the waste storage areas from the service areas to inside the buildings with an area of 7.1sq.m within Units nos. 1 and 2, and 14.2sq.m. for Unit no.3 and 4 set aside for within the building for waste storage.
- Moving a fence and gate between Units 2 and 3 to the rear of Unit 3
- The widening of the gravel margin along the west elevation of Unit 4
- An additional parking space added and landscape area increased where external refuse store was located in the service area between Units 1 and 2.

Consultations & Notification Responses
Not applicable

Policy Context
These include Core Strategy policies SP1 (Spatial Principles); Policy DM1 (Development Management); Policy T1 (Sustainable Transport) ;Policy T2 (Accessible areas of opportunity and needs); Policy EC1 (Employment and Economic Growth in Manchester);Policy EC2 (Existing Employment Space); Policy EC5 (East Manchester); Policy EN1 (design Principles and Strategic Character Areas); Policy EN4 (Reducing CO2 emission by enabling low and zero carbon development); Policy EN8 (Adaption to Climate Change); Policy EN 9 (Green Infrastructure); Policy EN14 (Flood Risk); Policy EN15 (Biodiversity and Geological Conservation); Policy EN16 (Air Quality);Policy EN18 (Contaminated Land); and Policy EN19 (Waste); Saved UDP policies, Policy DC26(Noise) and the guidance provided within the Places for Everyone Plan (JP-S1, JP-S5, JP-S7, JP-J1, JP-J2 and JP-J4), the National Planning Policy Framework, NPPG, the Guide to Development in Manchester Supplementary Planning Document, Manchester Climate Change Framework (2020-2025), and Manchester Zero Carbon Framework (2020).

Non-material change

The proposed amendments have been assessed, and it can be confirmed that the changes are considered to be of a non-material nature and are considered to be acceptable to the City Council as the Local Planning Authority.

The changes sought to the approved scheme relate to revisions to:-

- Re-location of the waste storage areas from the service areas to inside the buildings with an area of 7.1sq.m within Units nos. 1 and 2, and 14.2sq.m. for Unit no.3 and 4 set aside for within the building for waste storage.
- Moving a fence and gate between Units 2 and 3 to the rear of Unit 3
- The widening of the gravel margin along the west elevation of Unit 4
- An additional parking space added and landscape area increased where external refuse store was located in the service area between Units 1 and 2.

It has been advised by the planning agent that the request to move the waste storage areas internally within the building is for security reasons and to protect from vandalism. It is noted that the total areas have been kept the same.
It has been further advised that moving the fence and gate to the rear of Unit 3 is to create a clear demise between Units 2 and 3, and the change to the gravel path width to the west of Unit 4 is allow the underground services to run below gravel instead of the Unit 3 concreted yard.

Furthermore, a parking space and landscape area has been added in place of concrete pad which is no longer required in the service area between Units 1 and 2.

It is considered that the proposed revisions would not have a detrimental impact in terms of the visual appearance of the commercial development, or the visual and residential amenity of the properties in proximity to the site. The revisions would also not adversely affect parking provision and servicing arrangements for the development.

Other Legislative Requirements
Equality Act 2010
Section 149 (Public Sector Equality Duty) of the Equality Act 2010 requires due regard to the need to: Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act and; Advance equality of opportunity between persons who share a protected characteristic and persons who do not share it. The Equality Duty does not impose a legal requirement to conduct an Equality Impact Assessment. Compliance with the Equality Duty involves consciously thinking about the aims of the Equality Duty as part of the process of decision-making.

Human Rights Act 1998 considerations
This application needs to be considered against the provisions of the Human Rights Act 1998. Under Article 6, the applicants (and those third parties, including local residents, who have made representations) have a right to a fair hearing and to this end the local planning authority must give full consideration to their comments.

Protocol 1 Article 1, and Article 8 where appropriate, confer(s) a right of respect for a person's home, other land and business assets. In taking account of all material considerations, including Council policy as set out in the Core Strategy and saved polices of the Unitary Development Plan, the Director of Planning, Building Control & Licensing has concluded that some rights conferred by these articles on the applicant(s)/objector(s)/resident(s) and other occupiers and owners of nearby land that might be affected may be interfered with but that that interference is in accordance with the law and justified by being in the public interest and on the basis of the planning merits of the development proposal. She believes that any restriction on these rights posed by the recommendation given is proportionate to the wider benefits of and that such a

decision falls within the margin of discretion afforded to the Council under the Town and Country Planning Acts.

Recommendation: Approve

Condition(s) to be attached to decision for approval OR Reasons for recommendation to refuse

Paragraph One
The revisions to the approved scheme relate to:

- Re-location of the waste storage areas from the service areas to inside the buildings with an area of 7.1sq.m within Units nos. 1 and 2, and 14.2sq.m. for Unit no.3 and 4 set aside for within that building for waste storage.
- Moving a fence and gate between Units 2 and 3 to the rear of Unit 3
- The widening of the gravel margin along the west elevation of Unit 4
- An additional parking space added and landscape area increased where external refuse store was located in the service area between Units 1 and 2.

Paragraph Two
Following an assessment of the details submitted, I can confirm that the proposed amendments are considered to be of a non-material nature and acceptable to the City Council as the Local Planning Authority. The City Council is satisfied that the proposed changes will not result in any significant material alterations to the planning approval.

Condition no.2 Specified Plans

Unit 4 Proposed Plans - 12481-AEW-B4-00-DR-A-0661-S4 rev. P04

Reason - To ensure that the development is carried out in accordance with the approved plans, pursuant to policies SP1 and DM1 of the Manchester Core Strategy (2012).

Condition no. 16 (Refuse)

16.The development shall be implemented in accordance with the refuse storage locations on plan refs:
Unit 1 Proposed Plans - 12481-AEW-B1-00-DR-A-0601-S4 rev. P04;
Unit 2 Proposed Plans - 12481-AEW-B2-00-DR-A-0621-S4 rev. P05;
Unit 3 Proposed Plans - 12481-AEW-B3-00-DR-A-0641-S4 rev. P03;
Unit 4 Proposed Plans - 12481-AEW-B4-00-DR-A-0661-S4 rev. P04;
and the approved refuse storage arrangements shall remain in situ whilst the use or development is in operation.

Reason - In the interests of amenity and public health of the occupiers, once the development hereby approved is occupied, pursuant to policies SP1 and DM1 of the Manchester Core Strategy (2012).

Condition no. 22 (Boundary Treatment)

22. a) The boundary treatment scheme for the development shall be implemented in accordance with Proposed boundary treatments plan ref. 12481-AEW-XX-XX-DR- A-0508 rev.P11 received 19th November 2024, as revised by Proposed External Works Plan - 12481-AEW-XX-XX-DR-0504-S4 rev. P17 received 30th January 2026 in respect of the location of the gate relocated to the rear of Unit 3.

b) Finalised elevational designs of the boundary treatment and gates shall be submitted to and approved in writing by the City Council as local planning authority.

The approved scheme shall be implemented in full before the units hereby approved are first occupied and retained as such thereafter.

Reason - To ensure that the appearance of the development is acceptable to the City Council as local planning authority in the interests of the visual amenity of the area within which the site is located in order to comply with Policies SP1, EN1 and DM1 of the Manchester Core Strategy (2012), and the guidance provided within the Guide to Development in Manchester Supplementary Planning Document and Planning Guidance.
