Delegated officer report for planning application

Application no. 145154/FH/2026

Date registered valid: 10 February 2026

Proposal: Erection of single storey side and rear extension; together with excavation works to level the rear garden in-part, creation of a new patio area and relocation of stepped access.

Address: 66 Saddlecote Close, Manchester, M8 5EG

Ward(s): Crumpsall Ward

Applicant: Dana Faiq

Agent (if any): Mr Saghir Hussain, Create It Studio Architects

Case officer: Harriet Aidoo
Tel: 0161 234 4532
Email: harriet.aidoo@manchester.gov.uk

Recommendation: Approve

Date of recommendation: 1 April 2026

Application details

Type of application: Full Householder Application

Development type: Householder

Date of site visit: 2 March 2026

Standard consultations:

No consultations have been printed and sent.

No press advert had been published

Departure from Development Plan: No

Environmental Statement: Not required

Description of site/building

Listed building: Not applicable

Conservation area: Not applicable

Tree Preservation Order: Not applicable

Description of site / building / area

The application relates to a new build, pitched roof, semi-detached dwellinghouse within a residential setting of properties of similar type in the Crumpsall ward of north Manchester. The dwellinghouse is characterised by a dormer along the front roof elevation.

Figure 1. (Site visit 02.03.2026)

The application site benefits from existing amenity space along the front, side and rear elevation; together with boundary treatment, approximately 1.8 metres high along the side and rear perimeter; whilst incorporating gated access along the gable elevation. There is a fully hard surfaced driveway along the gable elevation, and a timber frame shed along the side garden.

The rear garden is elevated in-part, with graduating floor levels whilst integrating a stepped access along the common shared boundary with on. 64 Saddlecote Close.

Description of development

The submitted application proposes a single storey side and rear extension to create additional living accommodation.

Upon assessment of the initial plans, further clarification was sought from the planning agent. Revised plans and planning application forms were subsequently submitted, dated (15/03/26). The initially submitted title description of proposed works has been subsequently amended to reflect the latest sets of revised plans and planning application forms. The revised plan would comprise of:

- The description of the proposed works would now include proposed excavation works along the rear garden to level the ground in-part, creation of a new patio area, together with the relocation of the rear garden stepped access. The existing stepped access along the common shared boundary with on. 64 Saddlecote Close would be relocated along the common shared boundary with on. 68 Saddlecote Close.
- Clarification provided regarding the existing solar panels along the rear roof elevation.
- It has confirmed that the existing timber frame boundary treatment and gated access along the gable elevation would be removed.
- Details regarding the site storage location for a covered wheel bins store has been provided.

Following excavation works along the rear garden to level the ground in-part, creation of a new patio area, together with the relocation of the rear garden stepped access along the common shared boundary with on. 68 Saddlecote Close, it is intended to erect a single storey side and rear extension which would be set back from the front building line of the host building approximately 8413mm and would measure approximately 2953mm wide along the front elevation. It then projects approximately 4370mm deep along the common shared boundary with on. 68 Saddlecote Close whilst leaving a gap from this boundary and then comes forward of the common shared boundary with no. 64 Saddlecote Close approximately 8153mm wide. It then returns forward of the rear building line of the host building approximately 4000mm deep, whilst leaving a gap from this boundary. It would comprise of a pitched roof design, with the maximum proposed height not exceeding 3446mm (along the front elevation) and 3579mm (along the rear elevation) and would include 1no. door along the front elevation, 4no. windows along the roof elevation, together with a further window and bi-fold doors along the rear elevation. It is intended to use materials similar to existing dwellinghouse.

Consultations & Notification Responses

1. Local residents / public opinion

Occupiers of properties surrounding the application site were notified of the proposal. No objections, comments, or representations were received.

POLICY

The following guidance and policies are considered to be relevant to the proposed development.

1. The Manchester Core Strategy Development Plan Document 2012-2027 ("the Core Strategy") was adopted by the City Council on 11th July 2012:

- Policy DM1 (Development Management)
- Policy SP1 (Spatial Principles)
- Policy EN1 (Design Principles and Strategic Character Areas)
- Policy EN19 (Waste)

2. Places for Everyone (2022 - 2039)

The Places for Everyone Plan is a Joint Development Plan Document, providing a strategic plan and policies in relation to jobs, new homes and sustainable growth for nine of the 10 boroughs which make up Greater Manchester. The Plan and its policies are a material planning consideration in the determination of planning applications and therefore be given significant weight in the planning balance. The following policy is considered to be relevant:

- Sustainable and Resilient Places, JP-S1: Sustainable Development
- Places for People, JP-P1 Sustainable Places

3. Unitary Development Plan (UDP), (1995) - The UDP has been superseded by the Core Strategy Development Plan.

- Saved Policy DC1 - for Residential Extensions is still considered of relevance.

4. Guide to Development in Manchester Supplementary Planning Document and Planning Guidance, Adopted April 2007:

- Chapter 2: Design

5. Draft National Planning Policy Framework - 16th December 2025 is under consultation and as such is a material consideration. However, until its adoption, the current NPPF (December 2024) is still in place. Of relevance are:

- Section 2 - Achieving sustainable development
- Section 4 - Decision-making
- Section 12 - Achieving well-designed places

ISSUES

In the case of this application, the initially submitted plan has been revised in the interest of residential and visual amenity and revised details subsequently submitted, dated (15/03/26).

Principle

Section 38 (6) of the Town and Country Planning Act 2004 states that applications for development should be determined in accordance with the adopted development plan unless material considerations indicate otherwise. The proposed development is an extension to a residential dwelling, this is considered acceptable in principle as many people prefer to extend their homes rather than move in order to meet the changing residential needs of families; provided that there is no overriding unduly harmful impact upon either the character of the property, or upon the visual and residential amenity of neighbouring occupiers. Consideration must therefore be given to the proposal's appearance, impact on the visual amenity of the area and impact on the neighbouring properties' residential amenity.

Residential and Visual Amenity

Impact of works (single story side and rear extension; together with excavation works to level the rear garden in-part, creation of a new patio area and relocation of stepped access) - In light of the revised plans dated, (15/03/26), the issues raised with the planning agent have been sufficiently overcome. The proposed single storey side and rear extension is designed to appear subservient to the original dwellinghouse, coupled with the proposed set-back from the front building line of the host dwelling, together with the pre-existing topography of the rear garden being elevated in-part, with graduating floor levels, the resultant extension would appear sunken in-part along the rear elevation. In addition, the rear building line of the host dwelling is set-in from the rear building line of no. 68 Saddlecote Close, and the existing boundary fence would offer substantial screening along the rear garden. It is therefore considered that given this context, the proposal would have minimal impact upon the residential and visual amenity of the area and would cause less than substantial harm to the character and appearance of the host dwelling.

The proposed extension is not expected to generate any noise beyond what would be reasonably expected of a residential dwelling. However, given the proposed removal of the existing boundary treatment and combined gated access along the gable elevation of the host building, the proposed extension would be highly visible along the street scene, coupled with the proposed door along the front elevation, it is therefore recommended that a condition is attached to ensure that no part of the development shall be used for any purpose other than the purpose(s) of Class C3(a).

Whilst the proposed rearward projection at approximately 4000mm would be (350mm) in excess of the guidance set out in saved UDP policy DC1.3 a) regarding rearward extensions; it is within the limitations for a larger homes extension application; coupled with the sizable depth of rear garden that would still be retained, together with the green space immediately behind the rear boundary and the separation distance that would still be maintained from those houses beyond the rear boundary, it is not considered that this variance would cause any further degree of harm upon existing residential and visual amenity.

In terms of any adverse impact to privacy, overlooking and visual intrusion, the proposed fenestration would be limited to the front, rear, and roof elevations only; together with the fact that the proposal would be set back from the front building line of the host building approximately 8413mm, the impact to privacy, overlooking and visual intrusion would be less than substantial harm.

Furthermore, the proposed excavation works to level the rear garden in-part to facilitate the proposed single story side and rear extension, including the creation of a new patio area and relocation of the existing stepped access is considered as acceptable as part of the associated works as detailed in the revised information dated (15/03/26) and thereby, the proposal accords with policies DM1 and SP1 of the Core Strategy and saved UDP policy DC1.

Impact of works (Design and appearance) - In the case of this application, the new addition is designed to match the style and features of the current host by using matching materials, and as such, the resultant impact on the surrounding area in terms of the design, scale, and appearance of the proposed development is considered acceptable. Given the position of the extension and the limited massing, together with the use of proposed materials, the character of the street would not be unduly affected. The proposal could therefore be accommodated in this location in this instance without significant adverse impacts to the character of the host building or the general area. However, a materials condition has been attached to ensure that materials are adhered to, together with an additional condition requiring the existing boundary treatment to be kept in perpetuity and thereafter be so maintained; pursuant with the requirements of Core Strategy policies DM1 and EN1 and saved UDP policy DC1.

Impact of works (Vehicular access and car parking) - Although the proposal doesn't change how vehicles access and park at the property, the existing driveway along the gable elevation would in-part be lost to accommodate a covered wheeled bins store - revised plans dated, (15/03/26). As a consequence, off-street car parking space would be slightly reduced. However, as there are no parking restrictions along Saddlecote Close, and therefore, given the width of the application site along this elevation, a slight demand for on-street car parking could be accommodated and would not warrant the refusal of planning permission; pursuant with The Manchester Core Strategy Development Plan Document Policy DM1 and saved Policy DC1 of the Unitary Development Plan.

Impact of works (Refuse storage and collection) - The submitted revised plan dated, (15/03/26) demonstrates the site storage location for a covered wheeled bins store in-part along the existing driveway. It is therefore recommended that a condition is attached to ensure that this arrangement remains so in perpetuity and thereafter be maintained, in the interest of visual amenity; pursuant with The Manchester Core Strategy Development Plan Document policy DM1, EN19; and saved policy DC1 of the Unitary Development Plan.

Conclusions - For the reasons outlined above, and on balance, and subject to planning conditions, it is considered that the revised proposed development, (dated, 15/03/26) responds positively to policy and no comments or objections have been received in response to this application from local residents.

Other Legislative Requirements

Equality Act 2010

Section 149 (Public Sector Equality Duty) of the Equality Act 2010 requires due regard to the need to: Eliminate unlawful discrimination, harassment and victimisation and other conduct prohibited by the Act and; Advance equality of opportunity between persons who share a protected characteristic and persons who do not share it. The Equality Duty does not impose a legal requirement to conduct an Equality Impact Assessment. Compliance with the Equality Duty involves consciously thinking about the aims of the Equality Duty as part of the process of decision-making.

Human Rights Act 1998 considerations

This application needs to be considered against the provisions of the Human Rights Act 1998. Under Article 6, the applicants (and those third parties, including local residents, who have made representations) have a right to a fair hearing and to this end the local planning authority must give full consideration to their comments.

Protocol 1 Article 1, and Article 8 where appropriate, confer(s) a right of respect for a person's home, other land and business assets. In taking account of all material considerations, including Council policy as set out in the Core Strategy and saved policies of the Unitary Development Plan, the Director of Planning, Building Control & Licensing has concluded that some rights conferred by these articles on the applicant(s)/objector(s)/resident(s) and other occupiers and owners of nearby land that might be affected may be interfered with but that that interference is in accordance with the law and justified by being in the public interest and on the basis of the planning merits of the development proposal. She believes that any restriction on these rights posed by the recommendation given is proportionate to the wider benefits of and that such a decision falls within the margin of discretion afforded to the Council under the Town and Country Planning Acts.

Recommendation: Approve

Article 35 Declaration

In the case of this application, the initially submitted plan has been slightly revised in the interest of residential and visual amenity and revised plans subsequently submitted - (dated, 15/03/26). The local planning authority had no other issues to raise with the agent but have attached appropriate conditions to the approval.

Condition(s) to be attached to decision for approval OR Reasons for recommendation to refuse

1) The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason - Required to be imposed pursuant to Section 91 of the Town and Country Planning Act 1990.

2) The development hereby approved shall be carried out in accordance with the following drawings and documents:

- Householder Application for Planning Permission for works or extension to a dwelling form, received by the City Council as the Local Planning Authority on 15 March 2026.
- Location Plan and Existing Site Plan with application site edge in red, Drawing Number A1636(01)AP001, Revision P2, received by the City Council as the Local Planning Authority on 15 March 2026.
- Proposed Site Plan and 3D Views, Drawing Number A1636(02)AP001, Revision P4, received by the City Council as the Local Planning Authority on 15 March 2026.
- Proposed Floor Plans, Drawing Number A1636(02)AP002, Revision P4, received by the City Council as the Local Planning Authority on 15 March 2026.
- Proposed Elevations, Drawing Number A1636(02)AP003, Revision P4, received by the City Council as the Local Planning Authority on 15 March 2026.

Reason - To ensure that the development is carried out in accordance with the approved plans and submitted information; pursuant to saved policy DC1 of the Unitary Development Plan for the City of Manchester (1995), and policies SP1 and DM1 of the Core Strategy (2012).

3) The external facing materials to be used on the development hereby approved shall match those as stated on the approved plans and specified documents.

Reason - To ensure that the appearance is not adversely affected by the materials to be used in its construction, pursuant to saved policy DC1 of the Unitary Development Plan for the City of Manchester (1995) and policy DM1 of Manchester's Local Development Framework: The Manchester Core Strategy (2012).

4) Notwithstanding the provisions of Schedule 2, Part 1 of the Town and Country Planning (General Permitted Development) Order 2015 (as amended) (or any order revoking and reenacting that Order with or without modification), no windows, doors or other openings shall be inserted into the elevations of the extension hereby approved other than those shown on: Proposed Site Plan and 3D Views, Drawing Number A1636(02)AP001, Revision P4, Proposed Floor Plans, Drawing Number A1636(02)AP002, Revision P4, and Proposed Elevations, Drawing Number A1636(02)AP003, Revision P4, all received by the City Council as the Local Planning Authority on 15 March 2026, without planning permission being granted by the Local Planning Authority.

Reason - In the interests of residential amenity, pursuant to saved policy DC1 of the Unitary Development Plan for the City of Manchester (1995) and policies DM1 and SP1 of the Manchester Core Strategy (2012).

5) Wheeled bins shall be stored in a covered bin store, in the specified location as shown on: Proposed Site Plan and 3D Views, Drawing Number A1636(02)AP001, Revision P4, Proposed Floor Plans, Drawing Number A1636(02)AP002, Revision P4, and Proposed Elevations, Drawing Number A1636(02)AP003, Revision P4, all received by the City Council as the Local Planning Authority on 15 March 2026, and only brought to the back of pavement on collection days, and this arrangement shall remain so in perpetuity, and be maintained.

Reason - In the interests of residential and visual amenity, pursuant with saved policy DC1 of the Unitary Development Plan for the City of Manchester (1995) and policies EN19, DM1 of the Core Strategy (2012).

6) Notwithstanding the provisions of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended) (or any order revoking and re-enacting that Order with or without modification) no part of the development shall be used for any purpose other than the purpose(s) of Class C3(a) of the Schedule to the Town and Country Planning (Use Classes) Order 1987 (as amended) (or in any provision equivalent to that Class in any statutory instrument revoking and re-enacting that Order with or without modification).

Reason - In the exceptional circumstances of a proliferation of HMOs and short term lets restricting housing choice and adversely affecting sustainability and in the interests of residential amenity, to safeguard the character of the area and to maintain the sustainability of the local community through the provision of accommodation that is suitable for people living as families pursuant to paragraph 7.4 of the Guide to Development in Manchester: Supplementary Planning Document and Planning Guidance, the National Planning Policy Framework and policies SP1 and DM1 of the Core Strategy for the City of Manchester.
