

Didsbury Materials

Lintels, cills & detailing

Natural York stone from Johnsons Wellfield Quarry, Huddersfield.

Fascias, soffits, bargeboards, finials, false purlin ends

Treated Timber.

Rainwater goods

Marley Alutec Evolve cast aluminium Deepflow gutters and rainwater pipes in textured heritage black colour.

Roof covering

SIGA 112S Spanish slate.

"Due to its similarity of slates produced in the Vale of Ffestiniog, the SIGA 112S has been awarded Snowdonia National Park approval.

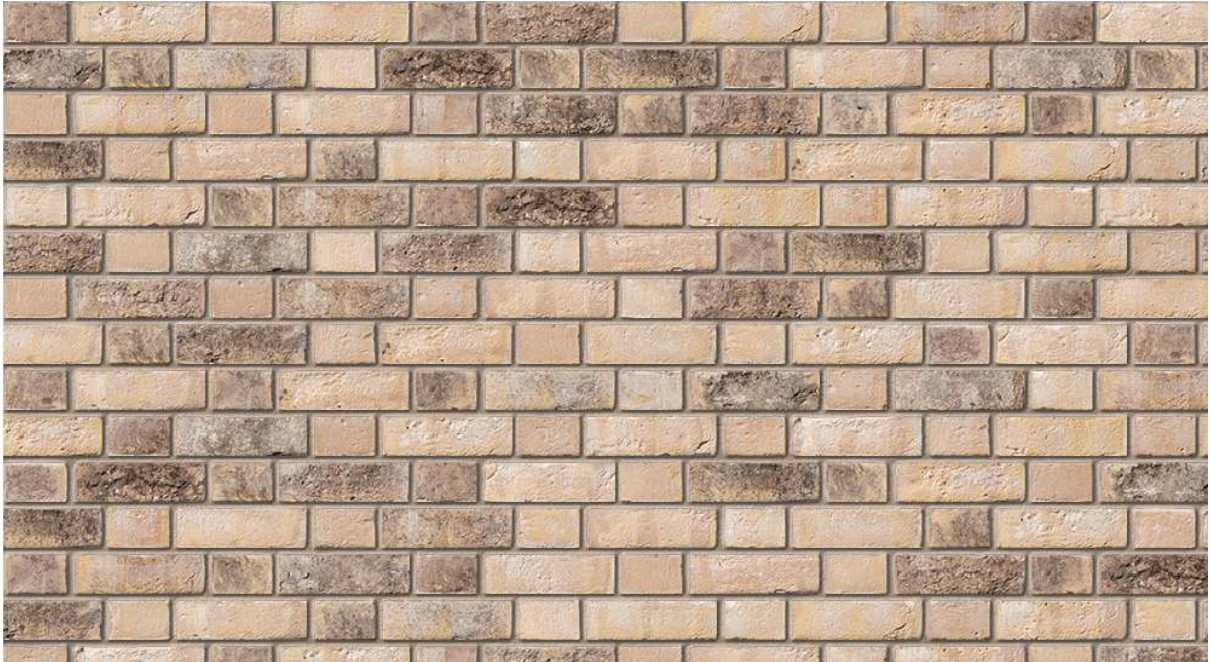

This slate was chosen for a development at St. James Park, Manchester. SIGA Natural Slate was specified for a major £20m redevelopment by the PJ Livesey Group at Manchester University's former Didsbury campus."
