

[illegible]

Architectural floor plan of a two-story building. The top floor is mostly empty, with a red text label "missing info for the loft" pointing to a large white rectangular area. The bottom floor is labeled "Loft" and contains a staircase, a small room, and a large open space. The building is surrounded by a hatched area representing the "Adjacent Neighbour".

This architectural floor plan shows a building with several distinct roof sections and structural features. The plan is divided into several rooms and corridors, with walls and doors clearly marked. Key features include:

- Pitched Roof:** Three areas are labeled "Pitched Roof", indicating sections with a sloped roof structure. These are located in the upper right, middle right, and lower right portions of the building.
- Sloped Roof:** Two areas are labeled "Sloped Roof", indicating sections with a sloped roof structure. These are located on the left side and the bottom right side of the building.
- Dormer:** A small structure labeled "Dormer" is located on the left side of the building, protruding from the main roofline.
- Adjacent Neighbour:** The bottom left corner of the plan is labeled "Adjacent Neighbour", indicating the location of the neighboring property.
- Structural Elements:** The plan includes various structural details such as walls, doors, windows, and roof lines, all rendered in a technical drawing style.

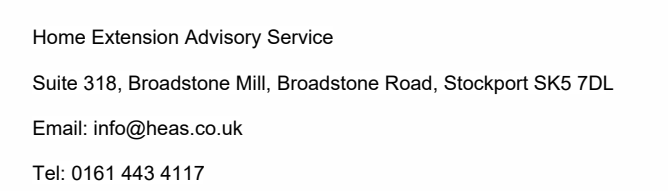

Scale bar 1:100

A scale bar labeled "Scale bar 1:100" with markings at 0, 5, and 10 m.

This architectural elevation drawing shows a two-story building with a complex roofline. The central portion of the building has a gabled roof, while the left wing has a lower, hipped roof. The facade is composed of different materials, including brick on the right and siding on the left. A prominent external staircase with a dark railing connects the ground level to the second floor. The drawing includes several windows of varying sizes and styles, some with shutters. Floor level markers are indicated by vertical lines and numbers: 2730 and 2740. The building is flanked by decorative fences with heart-shaped motifs. The entire drawing is rendered in black lines on a white background.

An aerial, black-and-white photograph of a row of three-story brick townhouses. The houses feature gabled roofs with dormer windows. A black metal fence runs along the front of the property, separating it from a street. The image is oriented diagonally.
