INDICATIVE ARTWORK EXAMPLES

Global Street Art – Sporting Heritage Murals

The following examples demonstrate our proven capability to deliver high-quality sporting heritage murals with integrated commercial sponsorship in heritage-sensitive urban contexts. We've executed major campaigns for leading sports brands including HOKA (London Half Marathon), Adidas (Berlin World Cup), Gymshark, and On Running—transforming building gables into compelling cultural celebrations.

All projects show professional hand-painted execution at scale, with sporting themes celebrating marathon running and football heritage. Murals created using heritage-compatible microporous paints on large gables in major urban gateway locations.
