Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:

What best describes the size of your site?:

Note: Please read the help text for further information why developments may be exempt or not in scope.

Details of the pre-application advice received

If the proposal is to be pursued, it is recommended that the development is reviewed and related to a more appropriate design solution. The details would need to be submitted as part of a new planning application that demonstrates that the site has the capacity to accommodate the proposed increase in the operational arrangements of the restaurant.
The submitted proposed drawings have been reviewed. Details of the existing first floor have not been provided, and it would be useful to understand how it is used.
The proposed seating area to the front of the building appears to be self-contained. Its operation as a separate unit would not be appropriate.
Arrangements for bin storage have not been provided and need to be considered.
I hope that the above is helpful.
The above advice is related to the information currently available to the City Council. This advice may be subject to alteration resulting from consultation or any further information that may be brought to the attention of the City Council and materially affects the consideration of this matter.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:
(a) a member of staff
(b) an elected member
(c) related to a member of staff

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
