Re: White Moss Road and Dam Head Drive, Blackley

To whom it may concern,

I am writing in response to a request, that I have received, from The Casey Group Ltd to look at trees at the above addresses.

The two trees in question are early matured Sycamores, approximately 20-30 years old and low-retention value.

In our opinion, the two trees can be felled; due to the location and close proximity to the development.

Yours Sincerely,

Jon Spencer

Director
