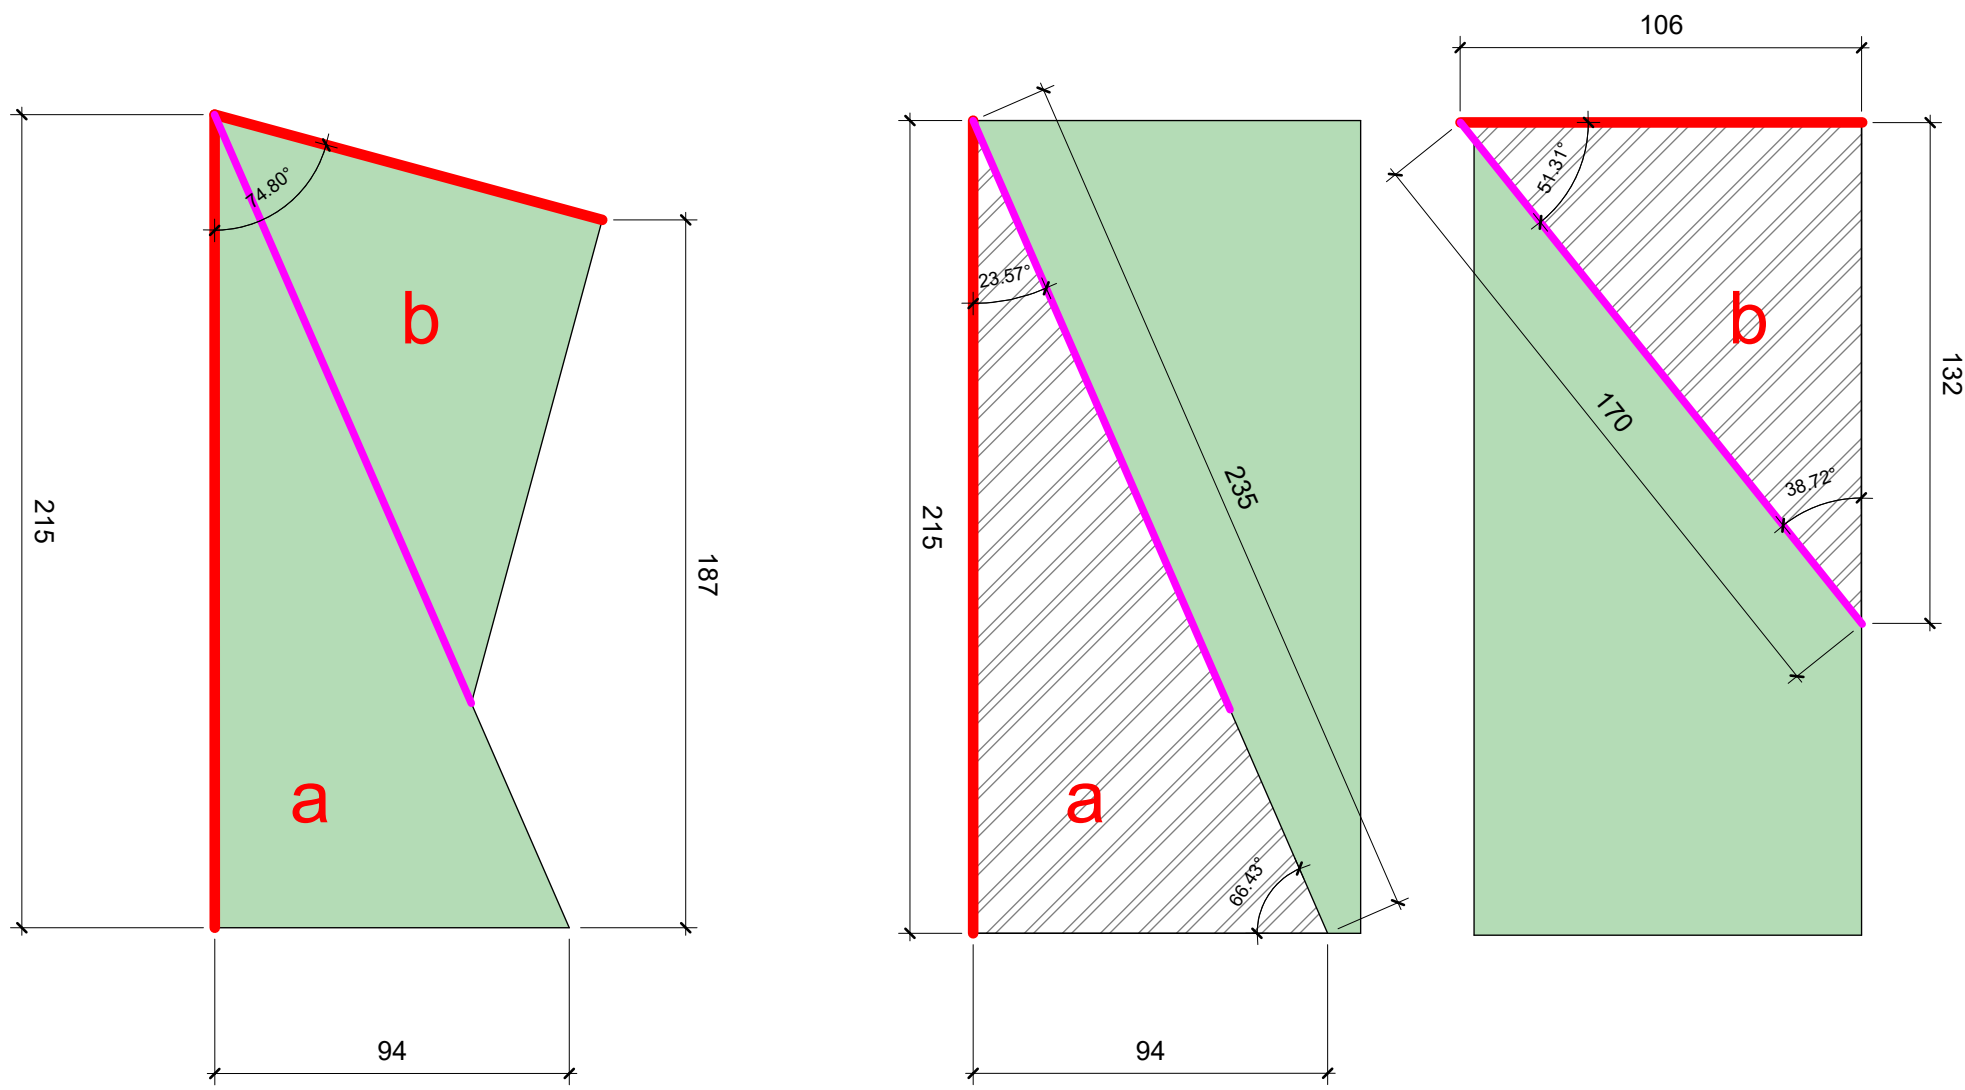

Figure 1 consists of three diagrams labeled (a), (b), and (c). Diagram (a) shows a green rectangle with a red diagonal line. The top-left corner is a green triangle with a right angle of 90.00°. The top edge of the triangle is 44, and the hypotenuse is 102. The angle between the hypotenuse and the left edge is 73.57°. The left edge of the rectangle is 259, and the bottom edge is 102. The right edge is 215. Diagram (b) shows a green rectangle with a red diagonal line. The top-left corner is a green triangle with a right angle of 90.00°. The top edge of the triangle is 44, and the hypotenuse is 102. The angle between the hypotenuse and the left edge is 73.57°. The left edge of the rectangle is 259, and the bottom edge is 102. The right edge is 215. Diagram (c) shows a green rectangle with a red diagonal line. The top-left corner is a green triangle with a right angle of 90.00°. The top edge of the triangle is 44, and the hypotenuse is 102. The angle between the hypotenuse and the left edge is 73.57°. The left edge of the rectangle is 259, and the bottom edge is 102. The right edge is 215.

Figure 1 consists of four diagrams (a, b, c, d) illustrating the geometric construction of a roof plan. Diagram (a) shows a rectangular area with dimensions 117x221, divided into regions a, b, c, and d. Diagram (b) shows the same area with a diagonal line and dimensions 117x221. Diagram (c) shows the area with a diagonal line and dimensions 117x221. Diagram (d) shows the area with a diagonal line and dimensions 117x221.

KEY PLAN

The key plan shows a site layout with a road at the top. A grey-shaded area represents the 'EXISTING BUILDING'. A red-shaded area represents the 'PROPOSED BUILDING', which is located to the right of the existing building. A north arrow is positioned in the bottom right corner of the plan.

1 Brickwork -Cut and Stuck H3
1 : 2

Figure 1 consists of four diagrams (a, b, c, d) illustrating the geometry of a rectangular plate with various dimensions and angles. The diagrams show different configurations of the plate, likely representing different stages of a process or different design options.

- Diagram (a):** A green rectangular plate with a yellow diagonal line and a red line segment. Dimensions include a total width of 115, a total height of 251, a bottom width of 117, and a bottom height of 227. Angles are marked at the top corners: 102.10° and 102.10°.
- Diagram (b):** A green rectangular plate with a yellow diagonal line and a red line segment. Dimensions include a total width of 102, a total height of 115, a bottom width of 55, and a bottom height of 117. Angles are marked at the bottom corners: 161.88° and 161.88°.
- Diagram (c):** A green rectangular plate with a yellow diagonal line and a red line segment. Dimensions include a total width of 81, a total height of 98, a bottom width of 55, and a bottom height of 117. Angles are marked at the bottom corners: 102.12° and 102.12°.
- Diagram (d):** A green rectangular plate with a yellow diagonal line and a red line segment. Dimensions include a total width of 102, a total height of 115, a bottom width of 55, and a bottom height of 117. Angles are marked at the bottom corners: 161.88° and 161.88°.

KEY PLAN

CLIENT

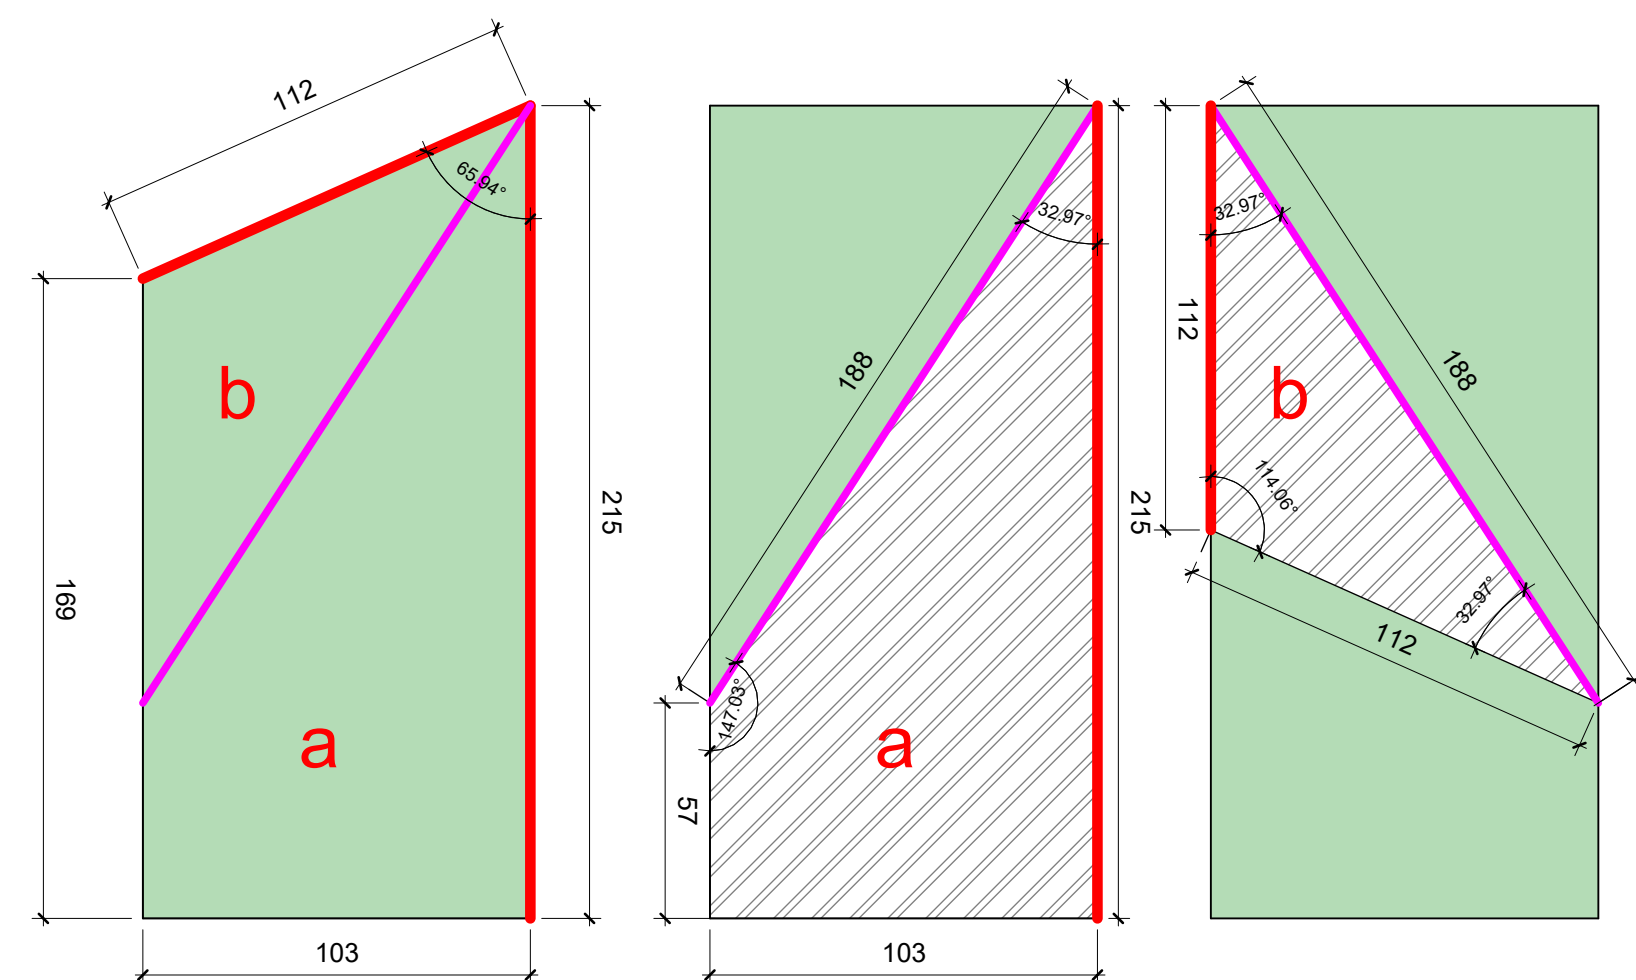

The Manchester City logo is a circular crest. It features a blue outer ring with the words "MANCHESTER" at the top and "CITY" at the bottom in white capital letters. Inside the ring is a shield divided into four quadrants. The top-left quadrant is blue with a white ship (the City of Manchester Ship). The top-right quadrant is white with a blue ship. The bottom-left quadrant is red with a white ship. The bottom-right quadrant is blue with a white ship. The shield is flanked by the numbers "18" on the left and "94" on the right, representing the year 1894.
