Loading and Personnel Doors
All loading and associated personnel doors are to be replaced as part of the development comprising a metal (aluminium/steel) panel construction receiving a black polyester powder coated finish.

External Wall Detailing
A blue band is to be installed as part of the development, this banding is to wrap around the rear and sides of the building and is also to be installed at roof verges and at the edges of flat roofs; refer to the proposed elevations drawing. The banding is to comprise a single sheet of aluminium/steel which is to receive a blue polyester powder coat finish.
