

Important – Planning permission & notices of consent

Compliance with conditions

- Your planning approval or consent is attached. It will contain conditions that you must comply with.
- Please read the conditions and understand their requirements and restrictions, for example submission and approval of details or measures to protect trees.
- Some conditions will require action before you start development and it is imperative that you seek to have these discharged before any work commences.
- Whilst every effort has been made to group conditions logically, it is your responsibility to ensure that you are aware of the requirements and/or restrictions of all conditions.
- If you fail to comply with the conditions this may result in a breach of planning control and this may lead to enforcement action.
- Failure to comply with conditions may also result in the development not being lawful.
- It is in your interests to demonstrate that conditions have been complied with. Failure to do so may cause difficulties if the property is sold or transferred.
- A fee is payable for each request to discharge conditions.
- For advice on any of these matters, please contact Planning, Manchester City Council, PO Box 532, Town Hall, Manchester M60 2LA or email planning@manchester.gov.uk

Town & Country Planning Act 1990 (as amended)

Planning Permission

Applicant

Manchester City Council
C/o Agent

Agent (if used)

Ms Claire Bandy
Architect Limited
27 Granby Road
Manchester
M32 8JL

Part 1 – Particulars of the application/development

Proposal: City Council Development - Refurbishment of and single storey extension to an existing caretaker's hut to provide early years childcare provision together with associated landscaping.

Location: Oswald Road Primary School, Oswald Road, Manchester, M21 9PL

Date of application: 7 October 2025

Application number: 144048/VO/2025

Part 2 – Particulars of decision

Manchester City Council gives notice that the development referred to in Part 1 has been **Approved** in accordance with the application and plans submitted subject to the condition(s) listed below (if any).

Article 35 Declaration

Officers have worked with the applicant in a positive and proactive manner based on seeking solutions to problems arising in relation to dealing with the planning application. The proposal is acceptable and therefore determined within a timely manner.

Condition(s) attached to this decision

1) The development must be begun not later than the expiration of three years beginning with the date of this permission.

Reason - Required to be imposed pursuant to Section 91 of the Town and Country Planning Act 1990.

2) Specified plans

The development hereby approved shall be carried out in accordance with the following drawings and documents:

- | | | | |
|----|-------------------------------|-------------|------------------------|
| a. | Drawing - Proposed | 24 Sep 2025 | 001 A LOCATION PLAN |
| b. | Drawing - Existing & Proposed | 24 Sep 2025 | 002 B SITE PLAN |
| c. | Drawing - Proposed | 17 Oct 2025 | 201 HGROUND FLOOR PLAN |

d.	Drawing - Proposed	01 Dec 2025	202 G	ROOF PLAN
e.	Drawing - Site Plan	15 Oct 2025	211 G	PROPOSED SITE PLAN
f.	Drawing - Proposed	01 Dec 2025	241 N	ELEVATIONS
g.	Drawing - Proposed	01 Dec 2025	242 J	ELEVATIONS
h.	Drawing - Proposed	24 Sep 2025	243	CELEVATIONS
i.	Drawing - Proposed	01 Dec 2025	251 F	SECTION A AND B
j.	Design & Access Statement	24 Sep 2025		DESIGN AND ACCESS STATEMENT
k.	Ecology report	13 Nov 2025		PRELIMINARY ECOLOGICAL APPRAISAL & B...
l.	Ecology report	13 Nov 2025		STATUTORY BIODIVERSITY METRIC
m.	Tree survey or information	06 Oct 2025		ARBORICULTURAL SURVEY DATA
n.	Tree survey or information	06 Oct 2025		TREE CONSTRAINTS PLAN

Reason - To ensure that the development is carried out in accordance with the approved plans, pursuant to policies DM 1, SP 1 and EN 1 of the Core Strategy and JP-P1 & of Places for Everyone.

3) Materials to be submitted

No above ground construction works shall take place until details/samples of the materials to be used in the construction of the external surfaces of the development hereby approved have been submitted to and approved in writing by the Local Planning Authority. The development shall then be carried out in accordance with the approved details/samples.

Reason - In order to ensure a satisfactory appearance in the interests of visual amenity in accordance with policies SP1 and DM1 of the Core Strategy and the requirements of the National Planning Policy Framework.

4) Hours of operation

The building hereby approved shall only be used in association with the existing school premises and shall not be open outside the following hours: -

a. Monday to Friday: 0730 - 1830

Reason - To safeguard the amenities of the occupiers of nearby residential accommodation in accordance with saved policy DC26 of the Unitary Development Plan for the City of Manchester and policies SP1 and DM1 of the Manchester Core Strategy (2012) .

5) DEMOLITION/CONSTRUCTION MANAGEMENT PLAN

Prior to the commencement of development, a demolition/construction management plan outlining working practices shall be submitted to and approved in writing by the City Council as Local Planning authority, which for the avoidance of doubt shall include as a minimum:

Measures to control noise and vibration;

- o Dust suppression measures;
- o Compound locations where relevant;
- o Details of an emergency contact telephone number
- o A community consultation plan; and
- o Sheeting of construction vehicles.

The development shall only be carried out in accordance with the approved management plan.

Reason - To safeguard the amenities of nearby residents pursuant to policies SP1, EN19 and DM1 of the Manchester Core Strategy.*The applicant should refer to our noise from building sites webpage for further information/guidance and also IAQM/EPUK Construction Guidance on controlling emissions. [Currently January 2024, Version 2.2]

6) PLANT EQUIPMENT NOISE - PRE-ABOVE GROUND WORKS

- a. Prior to any above ground works, either a scheme that demonstrates that any plant equipment will achieve a rating level of 5dB (LAeq) below the typical background (LA90) level in each octave band at the nearest noise sensitive location, or a scheme showing a method to acoustically treat/insulate any plant equipment so as to achieve a rating level of 5dB (LAeq) below the typical background (LA90) level in each octave band at the nearest noise sensitive location, shall be submitted to and approved in writing by the Local Planning Authority. The development shall then be carried out in accordance with the approved details.
- b. Prior to the first, a verification report, which will include post-completion testing, shall be submitted to and approved in writing by the Local Planning Authority to validate that the plant equipment achieves a rating level of 5dB (LAeq) below the typical background (LA90) level in each octave band at the nearest noise sensitive location.
- c. In the event of non-conformity with a rating level of 5dB (LAeq) below the typical background (LA90) level in each octave band, then any measures/changes required to achieve conformity shall be carried out. Any required measures/changes and verification shall continue until conformity has been achieved and agreed in writing by the Local Planning Authority, before the use can commence.

Reason - To minimise the impact of the development and to prevent a general increase in pre-existing background noise levels around the site. Pursuant to policies SP1 and DM1 of the Core Strategy and saved policy DC26 of the UDP.

7) Contaminated Land

- a. Before the development hereby approved commences, a report (the Preliminary Risk Assessment) to identify and evaluate all potential sources and impacts of any ground contamination, groundwater contamination and/or ground gas relevant to the site shall be submitted to and approved in writing by the City Council as local planning authority. The Preliminary Risk Assessment shall conform to City Council's current guidance document (Planning Guidance in Relation to Ground Contamination).
 - i. In the event of the Preliminary Risk Assessment identifying risks which in the written opinion of the Local Planning Authority require further investigation, the development shall not commence until a scheme for the investigation of the site and the identification of remediation measures (the Site Investigation Proposal) has been submitted to and approved in writing by the City Council as local planning authority.
 - ii. The measures for investigating the site identified in the Site Investigation Proposal shall be carried out before development commences and a report prepared outlining what measures, if any, are required to remediate the land (the Site Investigation Report and/or Remediation Strategy) which shall be submitted to and approved in writing by the City Council as local planning authority.
- b. When the development commences, the development shall be carried out in accordance with the previously agreed Remediation Strategy and prior to occupation a Completion/Verification Report shall be submitted to and approved in writing by the City Council as local planning authority.
- c. In the event that ground contamination, groundwater contamination and/or ground gas, not previously identified, are found to be present on the site at any time before the development is occupied, then development shall cease and/or the

development shall not be occupied until, a report outlining what measures, if any, are required to remediate the land (the Revised Remediation Strategy) is submitted to and approved in writing by the City Council as local planning authority and the development shall be carried out prior to occupation in accordance with the Revised Remediation Strategy, which shall take precedence over any Remediation Strategy or earlier Revised Remediation Strategy.

Reason - To ensure that the presence of or the potential for any contaminated land and/or groundwater is detected and appropriate remedial action is taken in the interests of public safety, Pursuant to policies SP1 and DM1 of the Core Strategy

8) Landscaping

a. Notwithstanding the details shown on the approved plans (Drawing - Site Plan 15 Oct 2025 211 PROPOSED SITE PLAN) the development hereby permitted shall not be occupied until full details of both hard and soft landscaping works have been submitted to and approved in writing by the Local Planning Authority. The details shall include the formation of any banks, terraces or other earthworks, hard surfaced areas and materials, planting plans, specifications and schedules (including planting size, species and numbers/densities), existing plants / trees to be retained and a scheme for the timing / phasing of implementation works.

b. Any trees or shrubs planted or retained in accordance with this condition which are removed, uprooted, destroyed, die or become severely damaged or become seriously diseased within 5 years of planting shall be replaced within the next planting season by trees or shrubs of similar size and species to those originally required to be planted.

Reason - To ensure that the site is satisfactorily landscaped having regard to its location and the nature of the proposed development and in accordance with policies SP1, EN9 and DM1 of the Core Strategy and the National Planning Policy Framework.

9) Boundary treatment

Prior to above ground works, details of the type, siting, design and materials to be used in the construction of boundaries, screens or retaining walls shall be submitted to and approved in writing by the City Council as Local Planning Authority. The approved structures erected shall be in accordance with the approved details and be in place prior to occupation. The structure thereafter shall be retained.

Reason - In the interests of amenity and in compliance with saved Unitary Development Plan Policy E3.3, Core Strategy policies SP1 and DM1 and the National Planning Policy Framework.

10) Cycle Storage

Prior to the first use of the development hereby approved the full details of secure, covered cycle parking facilities for the development shall be submitted to and approved in writing by the City Council as local planning authority. The approved details shall be installed prior to the first use of the development and be retained thereafter whilst the development is in use.

Reason - To ensure that adequate provision is made for the parking of cycles on the site pursuant to policies T1, T2 and DM1 of the Core Strategy.

11) Biodiversity mitigation

The proposed mitigation regarding nesting birds and terrestrial mammals within Section 6.2 of the Preliminary Ecological Appraisal and Biodiversity Net Gain Assessment, dated September 18 2025 should be adhered too. For the avoidance of doubt this includes

a. Impacts on nesting birds should be avoided by carrying out the construction work and similar operations outside of the bird breeding season (March-September).

Construction activities that might directly impact upon breeding birds should hence be limited to the October-February period. If vegetation has to be cleared during the bird breeding season checks immediately before clearance by a suitably qualified ecologist will be required. If nesting activity is detected work in that area will need to stop until the ecologist considers that nesting activity is finished.

b. To ensure that Hedgehog and any other mammals are not trapped or harmed during the site clearance works, smaller excavations should be covered if left overnight. Larger excavations, if left overnight or for longer periods, should be ramped to enable animals to escape.

Reason - To protect nesting birds and terrestrial mammals during construction and site clearance, in accordance with Policy EN15 (Biodiversity and Geological Conservation) of the Manchester Core Strategy, Policy JP-G8 (Net Enhancement of Biodiversity and Geodiversity) of Places for Everyone, and Section 15 of the National Planning Policy Framework (Conserving and Enhancing the Natural Environment).

12) Biodiversity enhancement

Prior to first occupation of the development hereby approved and in addition to biodiversity net gain requirements, a scheme for the enhancement of the site for ecological purposes shall be submitted to and agreed in writing by the City Council as Local Planning Authority. Details should include bat and bird boxes. The agreed scheme shall be implemented in accordance with a timescale to be agreed and retained and maintained thereafter.

Reason -To mitigate the loss of vegetation and to promote biodiversity, pursuant to policy EN15 of the Manchester Core Strategy and the National Planning Policy Framework (NPPF).

13) Biodiversity Net Gain HMMP

Prior to the commencement of development, a 30 year Habitat Management and Monitoring Plan for the on-site biodiversity enhancements shall be submitted to and agreed in writing by the City Council as Local Planning Authority. The development shall be implemented and maintained in accordance with the agreed details and shall be retained thereafter.

Reason - In the interests of biodiversity net gain being achieved on site pursuant to policy EN15 of the Manchester Core Strategy, policies JP-G8 of Places for Everyone, National Planning Policy Framework (NPPF) and Schedule 7A of the Town and Country Planning Act 1990 (as amended).

Informatives

Building Regulations 2010

This permission does not grant approval under Building Regulations.

Street Naming & Numbering Requirements

Manchester City Council is responsible for allocating street naming and numbering within Manchester for new developments or property conversions. Individuals or businesses are not permitted to allocate their own property numbers, building or street names.

If your development includes the creation of new dwellings (either new build or conversion of existing buildings), creation of new commercial properties or the subdivision of existing properties you must ensure that you request new or changes to

addresses through us so they can be officially allocated and registered in accordance with the Public Health Act 1925 Sections 17-19 & Greater Manchester Act 1981 Section 22.

Failure to do this may result in difficulties for the developer/occupier when requiring services such as connections to utilities, phone lines and postal services and may delay your development.

You can apply online at the following address:

www.manchester.gov.uk/info/100011/roads_parking_and_transport/1988/naming_and_numbering_of_houses_buildings_streets_and_roads/2

Cadent gas

Cadent Gas Ltd own and operate the gas infrastructure within the area of your development. There may be a legal interest (easements and other rights) in the land that restrict activity in proximity to Cadent assets in private land. The applicant must ensure that the proposed works do not infringe on legal rights of access and or restrictive covenants that exist.

If buildings or structures are proposed directly above the apparatus the development may only take place following diversion of the apparatus. The applicant should apply online to have apparatus diverted in advance of any works, by visiting cadentgas.com/our-services/gas-diversions

Prior to carrying out works, including the construction of access points, please register on www.linesearchbeforeudig.co.uk to submit details of the planned works for review, ensuring requirements are adhered to.

BNG Standard Condition

The statutory framework for biodiversity net gain requires a Biodiversity Gain Plan to be submitted and approved to discharge the biodiversity gain condition prior to the commencement of development.

A developer must submit the Biodiversity Gain Plan to the planning authority in writing, no earlier than the day after planning permission has been granted. The use of the Biodiversity Gain Plan template is strongly encouraged to bring together the required information into one document for approval.

The following content of a Biodiversity Gain Plan is required for development:

- information about the steps taken or to be taken to minimise the adverse effect of the development on the biodiversity of the onsite habitat and any other habitat;
- the pre-development biodiversity value of the onsite habitat;
- the post-development biodiversity value of the onsite habitat;
- any registered off-site biodiversity gain allocated to the development and the biodiversity; and
- any biodiversity credits purchased for the development.

In addition, the following is required:

- name and address of the person completing the Plan, and (if different) the person submitting the Plan;
- a description of the development and planning permission reference number (to which the plan relates);

- the relevant date, for the purposes of calculating the pre-development biodiversity value of onsite habitats and if proposing an earlier date, the reasons for using this earlier date;
- the completed biodiversity metric calculation tool(s), stating the publication date of the tool(s), and showing the calculation of the pre-development onsite value on the relevant date, and post-development biodiversity value;
- a description of arrangements for maintenance and monitoring of habitat enhancement to which paragraph 9(3) of Schedule 7A to the 1990 Act applies (habitat enhancement which must be maintained for at least 30 years after the development is completed);
- (except for onsite irreplaceable habitats) a description of how the biodiversity gain hierarchy will be followed and where to the extent any actions (in order of priority) in that hierarchy are not followed and the reason for that;
- pre-development and post-development plans showing the location of onsite habitat (including any irreplaceable habitat) on the relevant date, and drawn to an identified scale and showing the direction of North;
- a description of any irreplaceable habitat on the land to which the plan relates which exist on the relevant date, and any part of the development for which planning permission is granted where the onsite habitat of that part is irreplaceable habitat arrangements for compensation for any impact the development has on the biodiversity of the irreplaceable habitat; and
- if habitat degradation has taken place:
 - o a statement to this effect,
 - o the date immediately before the degradation activity,
 - o the completed biodiversity tool showing the calculation of the biodiversity value of the onsite habitat on that date, and
 - o any available supporting evidence for the value.

There is a standard Biodiversity Gain Plan template available to complete which brings together many of these matters into one document.

The submission of a Biodiversity Gain Plan to a local planning authority falls under Regulation 16 of the Town and Country Planning (Fee for Applications, Deemed Applications, Requests and Site Visit) (England) Regulations 2012 which covers fees for the written confirmation of compliance with a condition or conditions attached to a grant of planning permission.

The statutory framework for biodiversity net gain requires a Biodiversity Gain Plan to be submitted and approved to discharge the biodiversity gain condition prior to the commencement of development.

A developer must submit the Biodiversity Gain Plan to the planning authority in writing, no earlier than the day after planning permission has been granted. The use of the Biodiversity Gain Plan template is strongly encouraged to bring together the required information into one document for approval.

The following content of a Biodiversity Gain Plan is required for development:

- information about the steps taken or to be taken to minimise the adverse effect of the development on the biodiversity of the onsite habitat and any other habitat;
- the pre-development biodiversity value of the onsite habitat;
- the post-development biodiversity value of the onsite habitat;
- any registered off-site biodiversity gain allocated to the development and the biodiversity; and

- any biodiversity credits purchased for the development.

In addition, the following is required:

- name and address of the person completing the Plan, and (if different) the person submitting the Plan;
- a description of the development and planning permission reference number (to which the plan relates);
- the relevant date, for the purposes of calculating the pre-development biodiversity value of onsite habitats and if proposing an earlier date, the reasons for using this earlier date;
- the completed biodiversity metric calculation tool(s), stating the publication date of the tool(s), and showing the calculation of the pre-development onsite value on the relevant date, and post-development biodiversity value;
- a description of arrangements for maintenance and monitoring of habitat enhancement to which paragraph 9(3) of Schedule 7A to the 1990 Act applies (habitat enhancement which must be maintained for at least 30 years after the development is completed);
- (except for onsite irreplaceable habitats) a description of how the biodiversity gain hierarchy will be followed and where to the extent any actions (in order of priority) in that hierarchy are not followed and the reason for that;
- pre-development and post-development plans showing the location of onsite habitat (including any irreplaceable habitat) on the relevant date, and drawn to an identified scale and showing the direction of North;
- a description of any irreplaceable habitat on the land to which the plan relates which exist on the relevant date, and any part of the development for which planning permission is granted where the onsite habitat of that part is irreplaceable habitat arrangements for compensation for any impact the development has on the biodiversity of the irreplaceable habitat; and
- if habitat degradation has taken place:
 - o a statement to this effect,
 - o the date immediately before the degradation activity,
 - o the completed biodiversity tool showing the calculation of the biodiversity value of the onsite habitat on that date, and
 - o any available supporting evidence for the value.

There is a standard Biodiversity Gain Plan template available to complete which brings together many of these matters into one document.

The submission of a Biodiversity Gain Plan to a local planning authority falls under Regulation 16 of the Town and Country Planning (Fee for Applications, Deemed Applications, Requests and Site Visit) (England) Regulations 2012 which covers fees for the written confirmation of compliance with a condition or conditions attached to a grant of planning permission.

Surface Water Flooding

The Flood Map for Planning service indicates that the location of the proposed development is likely to be affected by surface water flooding during a 1 in 100-year rainfall event

If the applicant proposes to utilise the existing surface water drainage system, it is recommended that a full survey of the existing drainage infrastructure is undertaken. Any identified remedial works should be completed, and an ongoing maintenance scheme should be established to ensure that the existing drainage system is fit for purpose for the lifetime of the development.

Date: 12 December 2025

Signed: 

Julie Roscoe
Director of Planning, Building Control & Licensing

Manchester City Council, P O Box 532, Town Hall, Manchester M60 2LA

Notes

1. This permission refers only to that required under the Town and Country Planning Act 1990 does not include any consent or approval under any other enactment, byelaw, order or regulation.

2 If the applicant is aggrieved by the decision of the local planning authority to refuse permission or approval for the proposed development, or to grant permission or approval subject to conditions, they may appeal to the Secretary of State in accordance with Section 78(1) of the Town and Country Planning Act 1990 within six months of the date of the notice of the decision.

The Planning Inspectorate have introduced an online appeals service that can be used to make appeals online. This service is available through the gov.uk website – www.gov.uk/appeal-planning-decision. The Inspectorate will publish details of your appeal on the internet. Alternatively If you are unable to access the online appeal form, please contact the Planning Inspectorate to obtain a paper copy of the appeal form on tel: 0303 444 5000.

The Secretary of State has power to allow a longer period for the giving of a notice of appeal but they will not normally be prepared to exercise this power unless there are special circumstances that excuse the delay in giving notice of appeal.

If you intend to submit an appeal that you would like examined by inquiry then you must notify the City Council (planning@manchester.gov.uk) and the Planning Inspectorate (inquiryappeals@planninginspectorate.gov.uk) at least 10 days before submitting the appeal. Further details are on GOV.UK.

3. The statutory requirements are those set out in Section 79(6) of the Town and Country Planning Act 1990, namely Sections 70(1) and 72(1) of the Act.

4. If either the local planning authority or the Secretary of State refuses permission to develop land or grants it subject to conditions, the owner may claim that they can neither put the land to a reasonably beneficial use in its existing state nor render the land capable of a reasonably beneficial use by the carrying out of any development which has been or would be permitted.

In these circumstances, the owner may serve a purchase notice on the Council in whose area the land is situated. This notice will require the Council to purchase their interest in the land in accordance with the provisions of Part VI of the Town and Country Planning Act 1990

5. In certain circumstances, a claim may be made against the local planning authority for compensation, where permission is refused or granted subject to conditions by the Secretary of State on appeal or on a reference of the application to them. The circumstances in which such compensation is payable are set out in Section 114 of the Town and Country Planning Act 1990.
