Subject: 4 Marlowe Drive Manchester M20 6DE - 144537/TPO/2025

John,

4 Marlowe Drive Manchester M20 6DE - 144537/TPO/2025

The applicant has submitted the following pruning proposals:

T1 Purple Beech tree

We have twice reduced this tree with permission.

A repeat of the previous prune is sort, to contain and balance. We would remove any extended branches back to the main crown. This is a reduction by no more than 3 meters. The reason for this is, the tree when left to grow extends low into the road, contacts wires and has previously grown into the house.

T2 Oak tree.

The customer wishes to maintain the health of this stunning Oak tree. We have had permission for this before also. We propose a very light 10% thin and the reduction of any slightly overextended limbs by 1-2m (only 4 or 5 cuts)

This would serve to remove crossing or damaged branches and allow a little more light to penetrate through the crown. This also helps mitigates the risk of any Summer Drop we may have in a drought.

I can confirm that this work would be considered general routine maintenance to ensure the trees are maintained at a manageable size and suited to their position.

Kind regards

Rudi Farghaly
