HARDSCAPE KEY

PERMEABLE PAVING TYPE 1

- Modal X Piora Textured Natural Granite
- Size: 300 x 200 x 60mm, 200 x 100 x 60mm
- Colour: Light Granite
- Refer to 22639-RLL-25-XX-DR-C-2220

NOTE: To complement the soft informal and social areas, there should be: hard-surfaced playgrounds for healthy, creative outdoor play; fenced areas as extensions to classrooms or practical spaces; and places for learning activities such as music, theatre and (where appropriate) dance. Hard surfaced areas are particularly suitable for wheelchair users. The recommended area zone for hard informal and social area is wide, reflecting the range of pupils' needs, but for any special school this area should include: • space to play (including for wheelchair users) as well as space to run and kick a ball; • social spaces to sit and talk, or quiet places to be alone, with fixed seating and wheelchair space alongside; • outdoor space directly accessible from nursery and reception classrooms (and where appropriate for older pupils who benefit from 'cooling off' outdoors), a part of which should be covered to provide shade and some protection from light rain. The total area may also include: • areas with fixed adventure and play equipment with safety surfaces; • for secondary-age pupils, places for vocational learning such as vehicle washing; • for non-ambulant pupils, routes laid out for mobility training with safe simulations of hazards that pupils might meet outside school to help them to develop independence skills, as recommended in BB104.
