Stance: Customer made comments in support of the Planning Application

Comment Reasons:

Comment: I strongly support the extension of time for the marquee because I have restricted mobility. Going anywhere else to attend or take part in my religious activities, I found it very difficult because of parking and walking distance. Here, Parking facilities are close and make it easy for people who have mobility issues like me. There are a number of people who travel a long distance to attend this place just for this reason. Therefore, I urge you to reconsider your decision in favour of people like me.
