Description of site/building

Listed building: Not applicable

Conservation area:

Tree Preservation Order:

Description of area

This 0.88 ha site is bounded by Great Jackson Street, Pond Street and Owen Street. It is adjacent to Deansgate Square, with the 67 storey South Tower and 53 storey East Tower being closest to the site. It is adjacent to Boatmans residential building, with Lumiere, The Nile and Medlock Place, all 8 and 10 storey residential buildings, to the north east. City South, a five to eight storey apartment block, is to the east; vacant warehouses (Plot G) and a concrete batching plant lie to the south; and a marketing suite and the Crown Street residential towers to the west.

Much of the area has been redeveloped with the residential developments of Deansgate Square to the north and Crown Street to the west. However, the area still includes cleared sites, light industrial uses and the Gaddum Centre office building. Castlefield Conservation Area is c.250m to the north west and there are listed buildings nearby, including: the former Bridgewater Canal Company offices (Grade II) at the junction of Chester Street/Great Jackson Street; the Floodgate at Knott Mill Bridge; the Boundary Stone on Knott Mill Bridge; the Roman Catholic Church of St Wilfrid, George Street, Hulme; and the School House, Jackson Crescent, Hulme.

Description of development

The proposal is for changes to the highway layout of the scheme approved under planning permission 132199/FO/2021.

The site boundary overlaps with the site boundary for the adjacent site at Plots C and E, also known as Crown Street Phase 3 (CSP3), which received a resolution to approve 4 residential towers subject to a S106 agreement at Planning Committee in August 2024 for (Ref: 137226/FO/2023). The area of overlap relates to Melbourne Street and part of Great Jackson Street. This application therefore seeks to amend the Plot F permission so that the two applications are consistent. The changes proposed here have already been considered as acceptable to the Local Planning Authority (LPA) in the consideration and minded to approve recommendation of planning application 137226.

This application proposes to vary Conditions 2 and 58 of the application 132199/FO/2021 (as varied by 137793/NMC/2023 and 140899/NMC/2024) in relation to plan references referred to in these conditions, to allow for highway and public realm changes to Melbourne Street and Great Jackson Street to ensure consistency with CSP3 (137226). The proposed amendments include:

Melbourne Street

- Modification to allow for two-way access in and out of Melbourne Street onto Great Jackson Street.
- Creation of a shared service bay to the north of Melbourne Street, therefore removing the need for the service bay proposed as part of Plot F, which was previously proposed to be

located to the south of Melbourne Street. This would allow both towers (Tower F1 of Plot F and Tower E of Crown Street Phase 3) to be serviced from one side of the street. This will remove a potential 'chicane' type arrangement on Melbourne Street.

- Inclusion of access to CSP3 car park.
- Resultant amendments to the landscape strategy for Plot F - re-distributing trees from the north of Melbourne Street to the south and including additional trees in planters as proposed as part of the CSP3 application.

Great Jackson Street

- Highway layout to accommodate two-way movements with Melbourne Street
- Addition of two trees for wind mitigation required for CSP3.

There are no changes proposed to the approved waste management strategy. Waste will continue to be collected from Melbourne Street, with weekly collections proposed. The service management team will bring bins to the loading bay and return them promptly after collection.

Planning History

140899/NMC/2024 - Non-material amendment to planning permission 132199/FO/2021, as amended by 137793/NMC/2023, comprising design and public realm alterations – Approved 26.09.2024.

137793/NMC/2023 - Non material amendment to planning permission 132199/FO/2021 comprising of internal reconfiguration and amendment to EVC provision (variations to conditions 2 (plans), 38 (EVCs Ph1) and 67 (EVCs Ph2)) – Approved 28.09.2023.

132199/FO/2021 - Full planning permission for the demolition of existing structures and the erection of two 51-storey residential buildings (Use Class C3) across two phases, including residential amenity facilities, basement car parking, landscaping and public realm, servicing and access arrangements, highways alterations, and associated works – Approved 01.07.2022.

Consultations & Notification Responses

Publicity - The proposal has been advertised in the local press, site notices have been displayed and occupiers of neighbouring properties have been notified. A representation has been received from a neighbour expressing support as long as the proposal does not affect the tram and trainline too much.

Highway Services - No objections.

Environmental Health - No objections.

Issues

The main issues to consider are the impact on highway safety and the highway network, and on the public realm.

The proposal should be considered against the following policies:

Places for Everyone Plan 2024 (PfE)

Policy C5 (Streets for all) - The amendment will enhance the Melbourne Street's function, providing appropriate places and route for servicing and drop-off.

Policy JP-C8 (Transport Requirements of New Development) - The amendments will ensure safe and convenient access to the site and buildings for all users.

Policy JP-P1 (Sustainable Places) – The amendments will address microclimate issues such as wind through the appropriate placement of trees.

Manchester Core Strategy

SP1 (Spatial Principles) – The rationalisation of the highway layout would create a well-designed place that would make a positive contribution to the safety and wellbeing of residents.

CC5 (Transport) – The proposal would be acceptable in terms of pedestrian safety.

CC10 (A Place for Everyone) – The public realm would remain accessible.

Policy T1 (Sustainable Transport) – The proposals would provide high quality pedestrian routes and environment.

Policy T2 (Accessible areas of opportunity and need) – The modification to two-way access on Melbourne Street and the associated highway layout changes on Great Jackson Street would create a more efficient and less disruptive layout for servicing and parking.

Policy EN9 (Green Infrastructure) – The addition of trees for wind mitigation and changes to the landscape strategy would contribute to enhancing green infrastructure.

DM1 (Development Management) – Vehicular access would be rationalised to tie in with the adjacent site and to provide an improved public realm.

National Planning Policy Framework (NPPF)

Section 8 (Promoting healthy and safe communities) – The proposal would provide high quality public realm.

Section 9 (Promoting Sustainable Transport) – The proposal would rationalise the highway layout to improve access to this development and the adjacent development and would provide a high quality pedestrian environment.

Section 12 (Achieving Well-Designed Places) - High quality public realm with tree planting would be provided.

Highways and Public Realm

The proposed amendments are supported by swept path analyses which show that vehicles can safely manoeuvre in and out of the Plot F car park on Melbourne Street when entering/exiting from/to Great Jackson Street. The change to two-way access on Melbourne Street would create a more efficient layout for servicing and access to the car parks on both the Plot F scheme and the adjacent Plots C & E. The high quality public realm would be maintained and two additional trees would be provided on Great Jackson Street, improving the green infrastructure in this area.

S106 Agreement

A Deed of Variation to the S106 Agreement attached to the original planning permission has been agreed.

Conclusion

The proposals would provide a more efficient highway layout that ties in with the adjacent site and would maintain the high quality pedestrian environment. The changes would be in accordance with the local and national policy set out above and should be approved.

Surface Water Calcs With Surcharged Outfall.

For the avoidance of doubt, surface water shall drain at the restricted rate of 115 l/s. No surface water shall be permitted to drain directly or indirectly into the public sewer.

The approved scheme shall be implemented before first occupation of Phase 1.

Reason: To ensure a satisfactory form of development, promote sustainable development, secure proper drainage, prevent an undue increase in surface water run-off and to reduce the risk of flooding, pursuant to national policies within the NPPF and local policies EN08 and EN14 of the Core Strategy.

19) No development within Phase 1 shall be occupied until details of the implementation, maintenance and management of the sustainable drainage scheme have been submitted to and approved in writing by the City Council as local planning authority. The approved scheme shall be implemented before first occupation of Phase 1 and thereafter managed and maintained in accordance with the approved details. Those details shall include:

- a. Verification report providing photographic evidence of construction as per design drawings;
- b. As built construction drawings if different from design construction drawings;
- c. Management and maintenance plan for the lifetime of the development which shall include the arrangements for adoption by any public body or statutory undertaker, or any other arrangements to secure the operation of the sustainable drainage scheme throughout its lifetime.

Reason - To manage flooding and pollution and to ensure that a managing body is in place for the sustainable drainage system and there is funding and maintenance mechanism for the lifetime of the development pursuant to national policies within the NPPF and NPPG and local policies EN08 and EN14.

20) A study assessing the impact of the development on television signal reception within the potential impact area identified in the approved Terrestrial Television Baseline Survey and Report by Pager Power dated July 2023 shall be submitted to the City Council as local planning

authority within one month of the practical completion of Phase 1 of the development or before Phase 1 of the development is first occupied, whichever is the sooner, and at any other time during the construction of Phase 1 of the development if requested in writing by the City Council as local planning authority in response to identified television signal reception problems within the potential impact area. The study shall identify such measures necessary to maintain at least the pre-existing level and quality of signal reception identified in the approved Terrestrial Television Baseline Survey and Report by Pager Power dated July 2023. The measures identified shall be carried out either before Phase 1 of the development is first occupied or within one month of the study being submitted to the City Council as local planning authority, whichever is the earlier.

Reason - To ensure that the development at least maintains the existing level and quality of television signal reception, pursuant to Policy DM1 of the Core Strategy for the City of Manchester and Section 5 of the National Planning Policy Framework.

Reason - To provide an indication of the area of television signal reception likely to be affected by the development to provide a basis on which to assess the extent to which the development during construction and once built, will affect television reception and to ensure that the development at least maintains the existing level and quality of television signal reception, pursuant to Policy DM1 of the Core Strategy for the City of Manchester and Section 5 of the National Planning Policy Framework.

21) The development in Phase 1 shall be fully implemented and operated in accordance with the Radar Mitigation Scheme(1) agreed between VQ Developments Limited and the Operator(2).

(1)'Radar Mitigation Scheme' or 'Scheme' means a detailed scheme agreed with the Operator which sets out the measures to be taken to avoid at all times the impact of the development on the M10 Primary and Secondary Surveillance radar and air traffic management operations of the Operator.

(2)'Operator' means NATS (En Route) plc, incorporated under the Companies Act (4129273) whose registered office is 4000 Parkway, Whiteley, Fareham, Hants PO15 7FL or such other organisation licensed from time to time under sections 5 and 6 of the Transport Act 2000 to provide air traffic services to the relevant managed area (within the meaning of section 40 of that Act).

Reason - In the interests of aviation safety, pursuant to policy DM2 of the Core Strategy for the City of Manchester.

22) a) The development within Phase 1 hereby approved shall be carried out in accordance with:

Environmental Noise Survey, Plot F Great Jackson Street, Manchester, Fisher Acoustics, Reference: PR0660-REP01-MPF, November 2021; and

Technical Note: Acoustics, Ventilation and Overheating Assessment, Fisher Acoustics, Reference: T01-PR0660-MPF, 3rd November 2021.

b) The approved noise insulation scheme shall be completed and a post-completion verification report (including validation that the work undertaken throughout the development within Phase 1 conforms to the recommendations and requirements of the acoustic report approved under part a. above and including the results of post-completion testing to confirm that the internal noise criterion have been met) shall be submitted to and approved in writing by the City Council as

local planning authority before any of the dwelling units within Phase 1 are first occupied. Any instances of non-conformity with the approved acoustic report shall be detailed within the post-completion report along with any measures required to ensure compliance with internal noise criteria. Those measures shall be implemented in full before any of the dwelling units within Phase 1 are first occupied.

Noise survey data must include measurements taken during a rush-hour period and night time to determine the appropriate sound insulation measures necessary. The following noise criteria will be required to be achieved with window and purge cent doors are closed:

Bedrooms (night time - 23.00 - 07.00) 30 dB L Aeq (individual noise events shall not exceed 45 dB L Amax,F by more than 15 times)

Living Rooms (daytime - 07.00 - 23.00) 35 dB L Aeq

Gardens and terraces (daytime) 55 dB L Aeq (where practically possible).

Reason - To secure a reduction in noise from the main roads and surrounding road networks and any other potential sources of noise, in order to protect future residents from noise nuisance, pursuant to policies SP1, H1 and DM1 of the Core Strategy.

23) a) The residential amenity areas, including any gymnasium, within Phase 1 shall be acoustically insulated and treated to limit the break out of noise in accordance with a noise study of the premises and a scheme of acoustic treatment that has been submitted to and approved in writing by the City Council as local planning authority. The scheme shall be implemented in full before first occupation of the premises within Phase 1.

Where entertainment noise is proposed the LAeq (entertainment noise) shall be controlled to 5dB below the LA90 (without entertainment noise) in each octave band at the facade of the nearest noise sensitive location, and internal noise levels at structurally adjoined residential properties in the 63Hz and 125Hz octave frequency bands shall be controlled so as not to exceed (in habitable rooms) 47dB and 41dB (Leq,5min), respectively.

b) Prior to occupation of Phase 1 of the development a verification report to validate that the work undertaken throughout Phase 1 of the development conforms to the recommendations and requirements in the approved acoustic consultant's report shall be submitted to and approved in writing by the City Council as local planning authority. The verification report shall include post completion testing to confirm that acceptable criteria have been met. Any instances of non-conformity with the recommendations in the report shall be detailed along with any measures required to ensure compliance with the agreed noise criteria and timescales for the implementation of those measures.

Reason - To safeguard the amenities of the occupiers of the building and occupiers of nearby properties, pursuant to policies SP1 and DM1 of the Core Strategy.

24) a) Prior to first occupation of Phase 1, the building, together with any externally mounted ancillary equipment, shall be acoustically insulated in accordance with a scheme submitted to and approved in writing by the City Council as local planning authority in order to secure a reduction in the level of noise emanating from the equipment so as to achieve a rating level of 5dB (LAeq) below the typical background (LA90) level at the nearest noise sensitive location.

b) Prior to occupation of Phase 1 of the development a verification report to validate that the work undertaken throughout Phase 1 of the development conforms to the recommendations and requirements in the approved acoustic consultant's report shall be submitted to and approved in writing by the City Council as local planning authority. The verification report shall include post completion testing to confirm that acceptable criteria has been met. Any instances

of non-conformity with the recommendations in the report shall be detailed along with any measures required to ensure compliance with the agreed noise criteria and timescales for the implementation of those measures.

Reason - To safeguard the amenities of the occupiers of nearby residential accommodation, pursuant to policies SP1 and DM1 of the Core Strategy.

25) The mitigation measures set out in Chapter 6 'Air Quality' of the Environmental Statement and the email from Jennifer Chatfield dated 28 January 2022 and relating to Phase 1 of the development shall be carried out in full prior to first occupation of Phase 1 of the development and shall remain in situ whilst the development is in operation.

Reason - To secure a reduction in air pollution from traffic or other sources and to protect existing and future residents from air pollution, pursuant to Core Strategy Policies EN16 and DM1.

26) The Waste Management Strategy within the Design & Access Statement Z1-SHP-A180-RP-XX-B5D802 | REVISION P03 dated October 2021; the Transport Statement by Curtins; and drawing numbers 10334-F2-SHP-G200-PL-Grd-B5D801 P02 GA Plan - Level 00 Entrance Level and 10334-F2-SHP-G200-SK-Grd-008 P01 F2 Ground Floor Bin Collection Point relating to Phase 1 of the development shall be implemented as part of Phase 1 of the development and shall remain in situ whilst the use or development is in operation.

Notwithstanding the above, the waste storage provision shown in drawing number 10334-F2-SHP-G200-SK-B1-001 P01 - 'Sketch GA Plan F2 Level B1 MCC Bin Collection Only Option' and the paragraph on Waste Management within Jennifer Chatfield's email to Lucy Harrison of 28 January 2022 shall be implemented in full should waste collections be undertaken solely by Manchester City Council at any time.

Reason - In the interests of amenity and public health, pursuant to policy DM1 of the Core Strategy for the City of Manchester.

27) During the operational phase of Phase 1, no loading or unloading shall be carried out on the site outside the hours of:

07:30 to 20:00, Monday to Saturday,
10:00 to 18:00, Sunday/Bank Holiday.

Reason - In order to protect the amenity of local residents and in accordance with policies SP1 and DM1 of the Core Strategy.

28) a. External lighting within Phase 1 shall be designed and installed so as to control glare and overspill onto nearby residential properties in accordance with a scheme to be submitted to and approved in writing by the City Council as local planning authority prior to installation of the lighting.

b. Prior to occupation of Phase 1 of the development a verification report to validate that the work undertaken throughout the development conforms to the recommendations and requirements in the approved light consultant's report shall be submitted to and approved in writing by the City Council as local planning authority. The report shall include post completion testing to confirm that acceptable criteria have been met. Any instances of non-conformity with the recommendations in the report shall be detailed along with any measures required to ensure compliance with the criteria and timescales for implementation.

Reason - In order to minimise the impact of the illumination of the lights on the occupiers of nearby residential accommodation, pursuant to policies SP1 and DM1 of the Core Strategy.

29) Development within Phase 1 hereby approved shall be carried out only in accordance with the recommendations of the Crime Impact Statement 15 July 2021 reference 2021/0264/CIS01 by Greater Manchester Police, as relevant to that phase. No building within Phase 1 shall be occupied or used until the City Council as local planning authority has acknowledged in writing that it has received written confirmation of a secure by design accreditation relating to that phase.

Reason - To reduce the risk of crime pursuant to Policy DM1 of the Adopted Core Strategy for the City of Manchester.

30) No part of Phase 1 of the development shall be occupied unless and until space and facilities for bicycle parking have been provided in accordance with the approved details. The approved spaces and facilities shall then be retained and permanently reserved for bicycle parking.

Reason - To ensure that adequate provision is made for bicycle parking so that persons occupying or visiting the development have a range of options in relation to transport mode, pursuant to policy T1 of the City of Manchester Core Strategy.

31) No part of Phase 1 of the development shall be occupied unless and until car parking spaces suitable for use by disabled persons have been provided in accordance with the approved drawings and documents. These parking spaces shall be retained and permanently reserved for use by disabled persons.

Reason - To ensure that adequate provision is made for parking for disabled persons, pursuant to policies CC10 and DM1 of the City of Manchester Core Strategy.
