

Whitewood

Appearance and Characteristics of Wood:

Whitewood typically has a pale, creamy white to light yellowish hue, with sapwood showing a consistently lighter colour. The heartwood, when present, is slightly darker, usually a pale brown or light grayish brown. The uniform lightness gives the wood a clean and neutral appearance, which can make it easy to work with for various finishing treatments.

LATIN NAME

Picea Abies

ORIGIN

Finland, Germany, Ireland
Norway, Sweden, UK, Estonia

ENVIRONMENTAL CERTIFICATION

PEFC / FSC / FSC Controlled

DURABILITY

Low durability

MAIN USES

Boat Building, Cladding, Construction, Decking,
Fencing, Furniture, Packing Cases, Sheds,
Staircases.

WORKABILITY

Easy to work with by hand or machine, and it
can be finished smoothly. It takes glue, paint,
varnish, and stain well. Nails and screws well.

DENSITY

450 kg/m³

MOVEMENT CLASS

Medium

+44 (0) 121 559 5511
