Bin Bags **NOT** allowed
NO cans
NO food waste

Last resort bin
MUST be **clear** bin bags
That will be incinerated
Black Bin

NO Black bin bags
Recycled material **NOT**
allowed - all gets incinerated

BIN STORAGE

Level 0

- **North West Corner of The Street**

2 x Cardboard 2 x Dry Mixed Recycling 1 x Foodwaste 3 x Mixed Glass 1 General Waste

- **South West Service**

2 x Cardboard 2 x Dry Mixed Recycling 1 x Foodwaste 3 x Mixed Glass 1x General Waste

- **Main Commissary Kitchen**

2 x Cardboard 2 x Dry Mixed Recycling 4 x Foodwaste 2 x Mixed Glass 1x General Waste

Level 1

- **Between 112 and 113–Bowl side of concourse**

2 x Cardboard 2 x Dry Mixed Recycling 1 x Foodwaste 3 x Mixed Glass 1x General Waste

- **Between 103 and 104–Bowl side of concourse**

2 x Cardboard 2 x Dry Mixed Recycling 1 x Foodwaste 3 x Mixed Glass 1x General Waste

Level 2

- **There are no bin stores on Level 2, all waste is to be taken to Level 3**

Level 3

- **Between 318 –External side of concourse**

3 x Cardboard 4 x Dry Mixed Recycling 4 x Foodwaste 3 x Mixed Glass 2x General Waste

- **Left hand side of 301 –Bowl side of concourse**

3 x Cardboard 4 x Dry Mixed Recycling 4 x Foodwaste 3 x Mixed Glass 2x General Waste

Level 4

- **There are no bin stores on Level 4, all waste is to be taken to Level 3**

DID YOU KNOW....

- We send **zero waste direct to landfill**, but we need your help to increase what we can recycle.
- It is important that we all put waste in the **correct** bin.
- Doing so ensure that we can **recycle** as much as we can.
- We want our recycling rate to be **over 70%**
 - For example, if a drinks can is disposed of in the general waste bin, or glass goes in the food bin, these items cannot be recycled and will be incinerated.
- The more we can recycle reduces our environmental impact as we are giving the items a **second chance** to used again and made into something else.
- In June we used over **172k** reusable cups. Thus, saving the same amount of single use cups being used, this saved over **800kg** of plastic.

ZERO
WASTE
DIRECT TO
LANDFILL

REUSABLE CUPS
HAVE A LOWER
ENVIRONMENTAL
IMPACT THAN
SINGLE USE CUPS
WHEN THEY ARE
USED MORE THAN

1000
CUPS
