Internal Stores (Residential and Commercial)

Please provide details of internal stores / segregation of waste and recycling.

0.43m2 is provided per apartment. The internal bin store to the apartment block accommodates containers for waste and recycling, located within one room for ease of access/recycling. Waste and recycling streams are clearly separated by colour coded containers. The internal bin stores are lobbied and ventilated. External double doors are provided to facilitate collection.

Numbers of bins provided are based on a weekly collection cycle. This increases manoeuvring space/access to the containers.

Storage Areas for Waste Containers (Residential and Commercial)

Please provide details of container stores, attaching plans if appropriate.

Please refer to drawings:

18702-FCB-AB-GF-D-A-0411 - Proposed Plan - Apartment Block - Ground Floor

Ensure all bins in the store are accessible	☒
Ensure recycling facilities are as easy to access as general refuse	☒

Please confirm details of waste store ventilation and hygiene / cleaning proposals

Ventilation - Internal stores will be ventilated to external space with louvred doors

Hygiene - Regular wash down to apartment internal bin stores by building management

Please provide details of who will be responsible for placing the bins at the collection point and returning them to the store / property promptly e.g., resident / management company

Management company.

Please ensure that you have attached:
