

Existing waste storage area for the whole of Barton Arcade with adjacent goods lift for transporting to street level on Barton Square. Collections are made by B & M Waste Services on a daily basis. The waste is stored in 1100 litre Eurobins, which are transported to Barton Square via the service lift. The collection vehicle enters on the corner of Barton Square and St Ann Street and collects the waste and then leave (without needing to turn around) via Exchange Street. The collection point is where the arrow head is but at ground level externally.
