

INTERNAL LIME TOP COAT (FINISH) PLASTER

Ty-Mawr Premixed Lime Top Coat Plaster is a premixed, ready-to-use plaster that simply requires 'knocking-up' prior to use. It is made from our high calcium/non-hydraulic lime blended with carefully selected, fine aggregates which helps to ensure good workability as well as minimal shrinkage. There are different products for internal and external applications - please seek advice if you are unsure what to choose!
