Good morning,

**St. Wilfrid's Church Ford Lane Manchester M22 4NQ 144190/TCA/2025**

The applicant has submitted the following pruning proposals:

*Remove/reduce overhanging branches on x3 lime trees that overhang the properties at the rear of the church's graveyard.*
Whilst this is considered routine work, the applicant has not submitted a pruning specification. Therefore we recommend that lateral branches overhanging the properties are to be pruned to the boundary of the church and the crown to be lifted to a height of no more than 4m

*Remove epicormic growth at base of trees.*
This would be considered routine tree management and we have no objection to the planned work.

Kind regards

Rudi Farghaly
