Description

Please describe details of the proposed development or works including any change of use

The school site and playground areas are provided with very limited site perimeter protection allowing open access to the school site and buildings.

The existing fencing is a dilapidated chain link and metal fence providing very little safeguarding protection for the pupils and staff at St James Primary School.

Too improve safeguarding we are advising the existing unsuitable perimeter fencing is removed and a new site perimeter 2.4m high Galvanised Mesh fence installed to the full perimeter incorporating pedestrian and vehicle gates.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

◯ Yes
⊘ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:
Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:
The proposed development comprises the replacement of existing fencing on a like-for-like basis, with no change to the footprint, land use, or ecological baseline of the site.

Note: Please read the help text for further information why developments may be exempt or not in scope.
