Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. View government planning guidance on fire statements or access the fire statement template and guidance.
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or view government planning guidance on determination periods.

- [ ] No

If Yes, please describe the last use of the site

Storage and Distribution (Class B8)

When did this use end (if known)?

dd/mm/yyyy

Does the proposal involve any of the following? If Yes, you will need to submit an appropriate contamination assessment with your application.

Land which is known to be contaminated

- [ ] Yes
- [x] No

Land where contamination is suspected for all or part of the site

- [ ] Yes
- [x] No

A proposed use that would be particularly vulnerable to the presence of contamination

- [ ] Yes
- [x] No

Materials

Does the proposed development require any materials to be used externally?

- [ ] Yes
- [x] No

Pedestrian and Vehicle Access, Roads and Rights of Way

Is a new or altered vehicular access proposed to or from the public highway?

Will the proposal increase the flood risk elsewhere?

- [ ] Yes
- [x] No

How will surface water be disposed of?

- [ ] Sustainable drainage system
- [ ] Existing water course
- [ ] Soakaway
- [ ] Main sewer
- [ ] Pond/lake

Biodiversity and Geological Conservation

Is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

To assist in answering this question correctly, please refer to the help text which provides guidance on determining if any important biodiversity or geological conservation features may be present or nearby; and whether they are likely to be affected by the proposals.

a) Protected and priority species

◯ Yes, on the development site
◯ Yes, on land adjacent to or near the proposed development
⊘ No

b) Designated sites, important habitats or other biodiversity features

◯ Yes, on the development site
◯ Yes, on land adjacent to or near the proposed development
⊘ No

c) Features of geological conservation importance

◯ Yes, on the development site
◯ Yes, on land adjacent to or near the proposed development
⊘ No

Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

◯ Yes
⊘ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:
Over 25 square metres

Please justify the reason why biodiversity net gain does not apply:
The proposed works involve a change of use only and are confined to an existing unit within an existing the railway arch. The proposals have minimal impacts on biodiversity receptors. On this basis we have assumed that as no flora or fauna will be affected by the proposals and that a qualified ecologist and an Ecological Survey will not be required. The Government website for Biodiversity net Gain https://www.gov.uk/guidance/biodiversity-net-gainprovides an example for a development soley on a sealed surface as follows: Scenario 1: A development solely on a sealed surface The development is a new commercial building on an existing car park. There are no other habitats (e.g. a green verge or tree) within the red lineboundary of the development. The development would be exempted from biodiversity net gain by the de minimis exemption as: • the development does not impact on any on-site priority habitat; • the existing unit would be classified as developed land: sealed surface which has a biodiversity value of zero under the statutory biodiversity metric; and • there are no other onsite habitats. As the proposed works involve the change of use of an existing unit, then as above the proposed works can be considered as being confimed soley to a sealed surface which indicates that the proposed development falls under the de minimis exemption for bio diversity net gain.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Foul Sewage

Please state how foul sewage is to be disposed of:

- ☐ Mains sewer
- ☐ Septic tank
- ☐ Package treatment plant
- ☐ Cess pit
