APPENDIX 14.5 Whole Life Carbon Assessment

Whole Life Carbon Assessment (Buro Happold, 2025)

The Whole Life Carbon Assessment (WLCA) produced by Buro Happold (2025) contains project-specific information and the technical methodology used to determine carbon emissions at each lifecycle stage for the Proposed Development and is presented below. This information has been used to support the calculations provided in Appendix 14.2. This appendix should be read in conjunction with Appendix 14.2 (ES Volume II) and Chapter 14: Climate Change (ES Volume I) to ensure a comprehensive understanding of the assessment.
