This plan is only valid in combination with the structural construction plans and all detail plans by the responsible planners. The contractor must check all dimensions and levels on site. In case of contradictions, any discrepancies to dimensions as existing on site or in plans issued by third parties must be reported immediately to the site management prior to commencement of works. It is the contractor's responsibility to check all dimensions and levels on site. Dimensions are to be observed and build-out. Text refer to all physical characteristics and functions of any elements and coordinate with architects planning.
