Description of Proposed Works

Please describe the proposed works

I had a surveyor come out from pod point with regards to installation it was a pre-installation appointment and this was the email I have received from his findings:-

Thank you for your patience whilst we review our engineers findings from his survey Thursday last week.

The installation will involve a non-standard cable run of approximately 25 metres. The cable will be routed from the main electrics connection point externally, running up the wall and across above the front door canopy at high level. This will require ladder access. It will then continue around to the front of the property, across to the centre, and finally down to the charging unit (pod).

Due to the complexity of the routing, the installation is estimated to take around 6 hours and will need a 2nd engineers attendance due to the health & safety restrictions with working at height. As your installation is outside our standard package, there is a fixed additional cost of £200 incl. VAT.

Please note:

Permission will be required from Manchester City Council to run the cable across a public footpath as you currently have no off-street parking.
Loop supply approval must be confirmed prior to installation - we will submit this application to Northern Powergrid on your behalf but they do require the below information beforehand -
Owner/Occupier's Name and Address
Site Address
A statement confirming that the Owner of the Correspondence Address is the legal/registered owner of the Site Address
A statement confirming which company they have appointed
The type of work they are authorising (e.g., installation of an EV charger)
A copy of a site plan showing the property boundary or a valid MPAN (Meter Point Administration Number)
A valid signature, printed name, and date (digital signatures are accepted)

The property's electrical safety checks are satisfactory, with water and gas bonding in place and an acceptable Ze (earth fault loop impedance) reading.
Once the above have been settled (looped and council approval for trailing across the public footpath), we can then proceed with booking your installation however it is currently unlikely that we will be able to honour the provisional date given of May14th unfortunately.

Please let me know how you wish to proceed and if you have any questions.

Biodiversity net gain

Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 sets out that every planning permission granted for the development of land in England shall be deemed to have been granted subject to the 'biodiversity gain condition' requiring development to achieve a net gain of 10% of biodiversity value.

This is subject to exemptions, an exemption applies in relation to planning permission for a development which is the subject of a householder application, within the meaning of article 2(1) of the Town and Country Planning (Development Management Procedure) (England) Order (2015)*.

Applicants for planning permission are required to make a statement as to whether they believe the biodiversity gain condition will apply if permission is granted, please confirm:

☑ It is my belief that if permission is granted for the development to which this application relates the biodiversity gain condition would not apply

*A 'householder application' means an application for planning permission for development for an existing dwellinghouse, or development within the curtilage of such a dwellinghouse for any purpose incidental to the enjoyment of the dwellinghouse which is not an application for change of use or an application to change the number of dwellings in a building.

Site Visit

Can the site be seen from a public road, public footpath, bridleway or other public land?

- [x] Yes
- [ ] No

- [ ] Yes
- [x] No

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:
(a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

- [ ] Yes
- [x] No
