Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

◯ Yes
⊘ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:
Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:
De minimus

Note: Please read the help text for further information why developments may be exempt or not in scope.

Details of the pre-application advice received

Dr. Jagafa,
I refer to your inquiry, about the above site, and apologise for the delay in replying.
I would advise you that we would have some concerns about this proposal, for the following reasons:
- The loss of a family house
-The creation of a number of smaller units (whilst it can be said that all the proposed units would meet minimum space standards, a development where all the units are on the borderline, of minimum standards, is not considered to represent a quality development.
- No amenity space appears to be provided for these units, or if some could be provided, in the rear garden area this would appear to be insufficient to meet the needs of 4 households.
A planning application would not therefore be encouraged for the proposed development indicated in this submission.
I do, however, note that there was a recent approval on the site, as follows:
133979/FO/2022 - Conversion of single dwellinghouse to 2no. dwellinghouses (Class C3) with the associated erection of two, 2-storey bays and integrated roof extensions and part two, part single storey rear extensions and related elevational alterations following demolition of existing single storey front extension and part single, part two storey rear extension – Approved 21 September 2022
Whilst this permission has now expired it is noted that this proposal divided the property into 2 x three bedroom units, each over 2 floors, with front door access from Northmoor Road and provision of a rear garden area. Each of these two units could therefore be viewed as a reasonably sized family house, and a similar proposal may be able to be supported.
The advice in this email is given in good faith on the basis of the information available at the present time. The advice may be subject to revision following further examination or consultation, or where additional information comes to light, and is therefore not binding on any future recommendation, which may be made to the Council or any formal decision by the Council.

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?
