Why do you consider that a Lawful Development Certificate should be granted for this proposal?

A Certificate of Lawful Development is sought for the proposed roof enlargement and alterations at 206 Oswald Road, Chorlton, Manchester, M21 9GW.

The application is made under Section 192 of the Town and Country Planning Act 1990 to confirm that the proposed works constitute permitted development under Schedule 2, Part 1, Classes B, C and G of the Town and Country Planning (General Permitted Development) (England) Order 2015 (as amended).

The property is a dwellinghouse and the proposal comprises an enlargement and alteration of the roof by way of:

• construction of a rear L-shaped dormer extension;
• installation of three rooflights to the front roof slope; and
• removal of the existing chimney stack.

The development complies with the limitations and conditions of the relevant Classes of the GPDO, including:

• No part of the development exceeds the height of the existing roof ridge (Class B.1(b), Class C.1(c));
• The development does not extend beyond the plane of the principal elevation roof slope fronting the highway (Class B.1(c));
• The additional roof volume remains within the permitted allowance for a terrace dwelling (Class B.1(d));
• The rooflights will not protrude more than 0.15 metres beyond the plane of the roof slope (Class C.1(b));
• External materials will be of a similar appearance to the existing dwellinghouse (Class B.2(a));
• The dormer is set within the rear roof slope in accordance with Class B requirements (Class B.2(b));
• The removal of the existing chimney stack is considered permitted development under Class G.

On this basis, the proposed development constitutes permitted development and is therefore lawful.
