Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

◯ Yes
⊘ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:
Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:
No impacted biodiversity on site.

Note: Please read the help text for further information why developments may be exempt or not in scope.

Details of the pre-application advice received

The proposal has sought to address the concerns of the local planning authority. To move forward the proposal would need to be presented as a planning application and subject to consultation.

This process may lead to the emergence of issues that have not been identified at the pre-application stage.

There is a preference for the co-worker space to be omitted. If it is pursued discussions would need to need to be undertaken to determine how this space might be managed as part of the development.

The above advice is related to the information currently available to the City Council. This advice may be subject to alteration resulting from consultation or any further information that may be brought to the attention of the City Council and materially affects the consideration of this matter.
