Supporting information requirements

Where a development proposal is likely to affect features of biodiversity or geological conservation interest, you will need to submit, with the application, sufficient information and assessments to allow the local planning authority to determine the proposal.

Failure to submit all information required will result in your application being deemed invalid. It will not be considered valid until all information required by the local planning authority has been submitted.

Your local planning authority will be able to advise on the content of any assessments that may be required.

Biodiversity net gain

Biodiversity net gain is a legal requirement for planning permission introduced on 12 February 2024. All applications are required to either provide detailed information proving there will be a biodiversity increase; or explain why the requirement does not apply to the development.

Do you believe that, if the development is granted permission, the general Biodiversity Gain Condition (as set out in Paragraph 13 of Schedule 7A of the Town and Country Planning Act 1990 (as amended)) would apply?

◯ Yes
⊘ No

Biodiversity net gain has been introduced as a general condition for planning permission. As set out in The Environment Act 2021: "grants of planning permission in England [are] to be subject to a condition to secure that the biodiversity gain objective is met". Therefore, in England, all planning permissions are generally subject to biodiversity gain rules, unless they are specifically exempt or out of scope.

If you have stated that the biodiversity net gain requirement does not apply to your application you must provide the reason(s) why, and may also need to supply evidence (especially where you believe the application is eligible for the 'de minimis' exemption).

Please add all the reasons why biodiversity net gain does not apply and enter a justification for each one

Reason biodiversity net gain does not apply:
Development subject to the de minimis exemption (development below the threshold)

What best describes the size of your site?:
Under 25 square metres

Please justify the reason why biodiversity net gain does not apply:
This application relates to alterations and an extension to an existing single dwellinghouse and is therefore householder development, which is exempt from the statutory Biodiversity Gain Condition under Schedule 7A of the Town and Country Planning Act 1990 (as amended). Notwithstanding this exemption, the proposed development includes a sedum roof which will provide additional ecological and biodiversity benefits.

Note: Please read the help text for further information why developments may be exempt or not in scope.

- (x) Yes
- ( ) No
- ( ) Unknown

If Yes, please include the details of the existing system on the application drawings and state the plan(s)/drawing(s) references

The property is connected to the mains sewer, and the proposed development will connect to the existing drainage system. The extension is to provide additional living and dining space only and will not materially alter foul drainage arrangements. The proposed shower room and relocated utility room will connect to the existing foul drainage pipes and discharge to the existing mains sewer.

Waste Storage and Collection

Do the plans incorporate areas to store and aid the collection of waste?

- (x) Yes
- ( ) No

Water storage will be down the side of the property behind a gate.

Details of the pre-application advice received

I contacted the case officer, Tracie Simpson, by email prior to submitting this application, as she had previously dealt with and approved the original application for this development (reference 142571/FH/2025).
I was seeking advice on whether the proposed changes to the approved roof design could be dealt with through a non-material amendment. Before receiving a response, I submitted an application for a non-material amendment; however, this was subsequently declined on the basis that the proposed changes to the roof structure did not fall within the scope of a non-material amendment. T
his application has therefore been submitted as a full householder application to seek permission for the revised roof design.
