This plan is only valid in combination with the structural construction plans and all detail plans by the responsible planners. The contractor is responsible for checking all dimensions on site. In case of contradictions, any discrepancies in dimensions as existing on site or in plans issued by third parties must be reported immediately to the site management prior to commencement of works. It is the contractor's responsibility to check all plans for completeness and consistency as relevant to execution and build-out. Text refer to all physical characteristics and functions of any elements and coordinate with architects planning.
