Details of the pre-application advice received

In respect of the questions raised, please see our comments below:

1. Canopy and food kiosk proposals
Thank you for sending through the proposals of the canopy and food kiosk proposals. We anticipated that a more permanent solution to overcome the issues with space in the canteen would take the form of a physical extension of the main school, as opposed to a free standing, open sided structure. Please could you explain the thought process behind the proposed free standing structure and why an extension has not been proposed. Is it possible that the canopy structure be attached/ have a connection physically to the main school? Also whilst we appreciate the canopy would work in summer, we have concerns that the proposed solution would not be favourable when the weather is bad. The LPA have concerns with the current proposals.

Consideration will need to be given as to whether the area of land to be impacted would require BNG contributions.

2. Temporary catering van permission – extension
If you wish to extend the duration of the temporary consent, you would need to apply again for such temporary consent. You would need to put in a new full application and specify for how long you need the consent for.

3.Ground works investigations and remediation
In respect to your question regarding the ground investigation report to support any application for a permanent solution, it maybe possible to take the old report and provide an addendum with updated investigation results. Whilst the phase 1 report might remain mostly the same, you would require a new phase 2 report. 4 years is considered too long to re-use the same report, given the potential movement of organic materials underground from previous development on the site.

We trust this information will be of assistance.

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:
(a) a member of staff
(b) an elected member
(c) related to a member of staff
(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.

Do any of the above statements apply?

◯ Yes
⊘ No
