Waste management strategy and proforma

PLEASE NOTE
- WE ANTICIPATE THE NEW LAYOUT TO CREATE MUCH LESS WASTE THAN OUR EXISTING OPERATION, DUE TO REDUCING THE NUMBER OF FOOD KITCHENS FROM 5 TO 1. THE BELOW DETAILS OUR CURRENT WASTE STRATEGY, WHICH WILL CONTINUE UNAFFECTED (POTENTIALLY REDUCING OVER TIME).

Commercial Developments

Please state number of bins you propose, showing calculations where appropriate.

The current weekly waste collection schedule is detailed below:

SITE	WASTE DESCRIPTION	CONTAINER TYPE/SIZE	FREQUENCY	QUANTITY
New Century Hall	Mixed Municipal Waste	1100LTR	WEEKLY	2
New Century Hall	Paper & Cardboard	1100LTR	WEEKLY	1
New Century Hall	Mixed Glass	240LTR	WEEKLY	4
New Century Kitchen	Mixed Municipal Waste	1100LTR	WEEKLY	8
New Century Kitchen	Paper & Cardboard	1100LTR	WEEKLY	8
New Century Kitchen	Organic Food Waste	240LTR	WEEKLY	5
New Century Kitchen	Mixed Glass	240LTR	WEEKLY	6

Has / will a contract be obtained with a licenced waste carrier?	**Yes**

Mixed Use Developments

Are the stores for residential and commercial waste completely separate from each other, with residents having no access to the commercial store and the commercial units having no access to the residential store?	**N/A**

Internal Stores (Residential and Commercial)

Please provide details of internal stores / segregation of waste and recycling.

We use separate bins for glass on the bars, and have a separate food waste bin in the KP area, so food waste doesn't enter our usual bins. We also separate cardboard and use separate 1100L bins for this as detailed in the above table.

Storage Areas for Waste Containers (Residential and Commercial)

Please provide details of container stores, attaching plans if appropriate.

We use a large bin store in our B2 level. Empty bins are stored down here and then brought up in our goods lift when full for collections from the Miller St loading bay.

Ensure all bins in the store are accessible	X
Ensure recycling facilities are as easy to access as general refuse	X

Please confirm details of waste store ventilation and hygiene / cleaning proposals

Ventilation - There is adequate extraction and ventilation in the B2 level. **Hygiene - The area is kept tidy by our stock team, and cleaned quarterly. Bins are jetwashed periodically, outside in our loading bay.**

Please provide details of who will be responsible for placing the bins at the collection point and returning them to the store / property promptly e.g., resident / management company

New Century is responsible for all movement of our own bins.

Please ensure that you have attached:

Detailed plans of bin stores - **As in original planning application**
Location plans showing stores - **As in original planning application**
Location plans showing the proposed collection point and the route the collection vehicle will take (please refer to the Road, Vehicle and Waste Operative Access Specification – paying particular attention to turning space and reversing) - **As in original planning application**
