Hi all,

Hope you are well.

Please see Highways response below in relation to application 143452/FO/2025.

FURTHER HIGHWAYS COMMENTS 28TH JULY 2026:

Further to comments made in Planning Committee, Highways has reviewed the submitted TS and associated information, and it is accepted that over the school peak pick up and drop off periods (approx. 20 mins each) the development is likely to generate circa 2 additional vehicle movements per minute.

As the site is located within an area that already experiences relatively high traffic flows during peak periods, when considered in the context of these existing traffic levels, the forecast increase in vehicle movements generated by the development, is not considered significant and is unlikely to result in a material impact on the operation of the local highway network.

Many thanks,

Laura

Laura Wareing (BSc Hons, MSc)
Development Control Engineer
Highways Development Control
Neighbourhoods Directorate
