WHOLE SITE CONTEXT

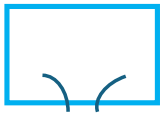

PROPOSED REAR GARDEN PLAN

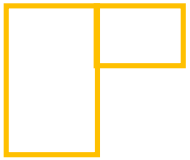

A & C: These 2 sections are 2.4M wide, 3M depth and 2.4m high. These 2 sections will create 8 pens for a maximum of 40 duck.

Each section will have 4 pens stacked in a 2x2 configuration, these pens all have an opening outward door.

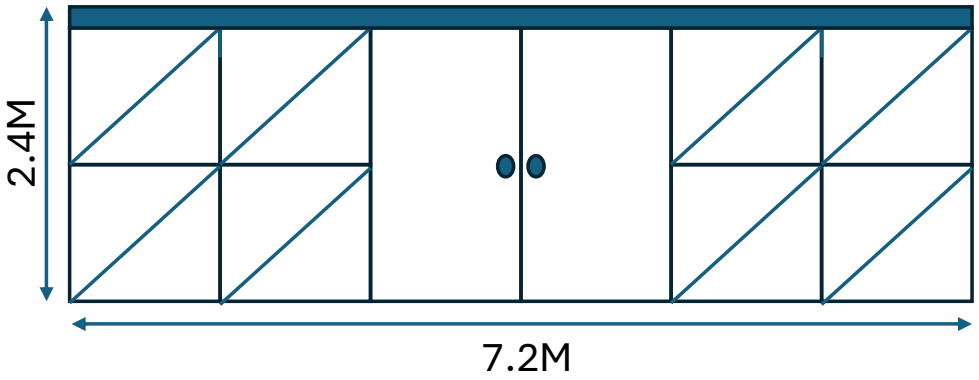

B: This is the central section of the Duck House outbuilding, this section is 2.4M wide, 3M depth and 2.4m high. This section will have 2 doors opening outwards a left and a right door.

D & E: These 2 section create an L shaped platform which covers an initial area of 3M x 5.4M, this allows movement from the concrete part of the garden to the duck house. The remaining 1.2M x 5.2M section covers the frontage of the Duck house ending inline with the right hand side of the Duck House.

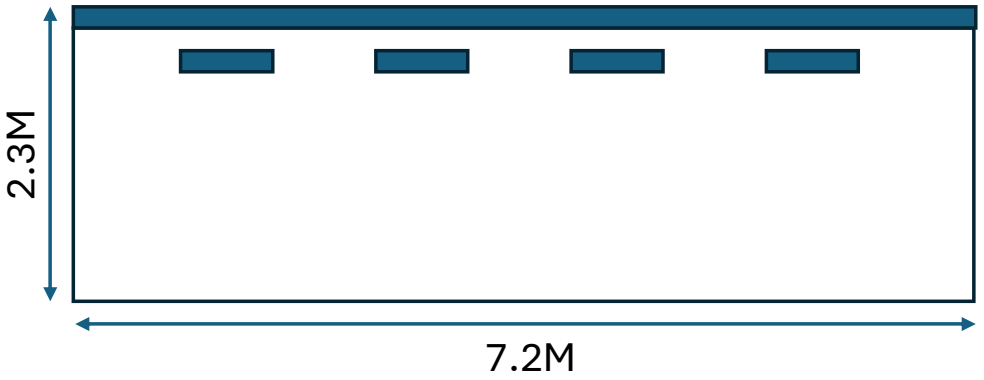

VISUAL CONCEPT - NO PILLARS / NO OVERHANG

Front Elevation

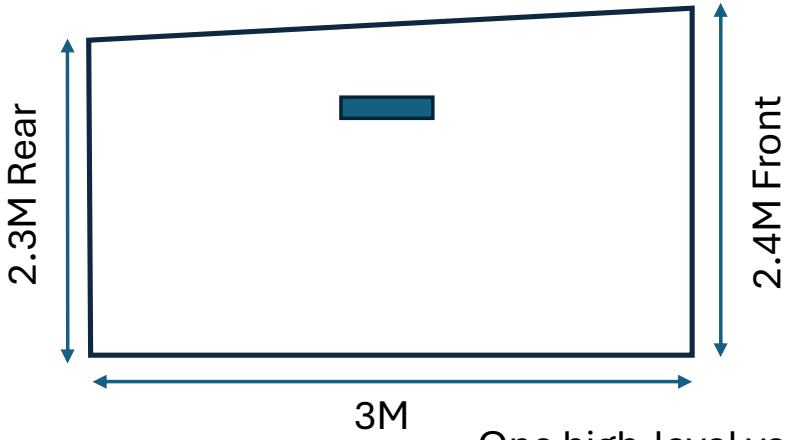

Eight black-framed mesh doors in 2 x 2 banks; two central solid doors. All open outwards

Rear Elevation
