2. Extract Air rates calculations

The all electric cooklines comprises:-

1 x Hamoki twin tank fryer DF-28L 400mm x 800mm
1 x Lincat 6 plate range ESLR9C 600mm x 900mm
1 x KRD Rice warmer 458mm x 458mm
1 x Microwave Oven, Adexa P180M18ASLA0 515mm x 420mm

The calculations, using Thermal Convection method, produce an extract air volume of 0.475m³/s which is rounded up to 0.6m³/s As shown on the calculation sheet, to provide some contingency.
