Series CD

Used in countless installations throughout the world, louvre faced ceiling diffusers are a consistently popular product, well regarded due to their architectural appearance and high performance diffusion characteristics.

HVC Series CD ceiling diffusers make use of lightweight aluminium extrusions with fully mitred corners, and are of a higher quality than many cheaper pressed units.

We hold large quantities of popular sizes of CD4 in stock, giving us the capability to supply even the largest orders on a next day basis.

For non standard sizes, units are manufactured to order in any size and with any blow pattern.

Design features

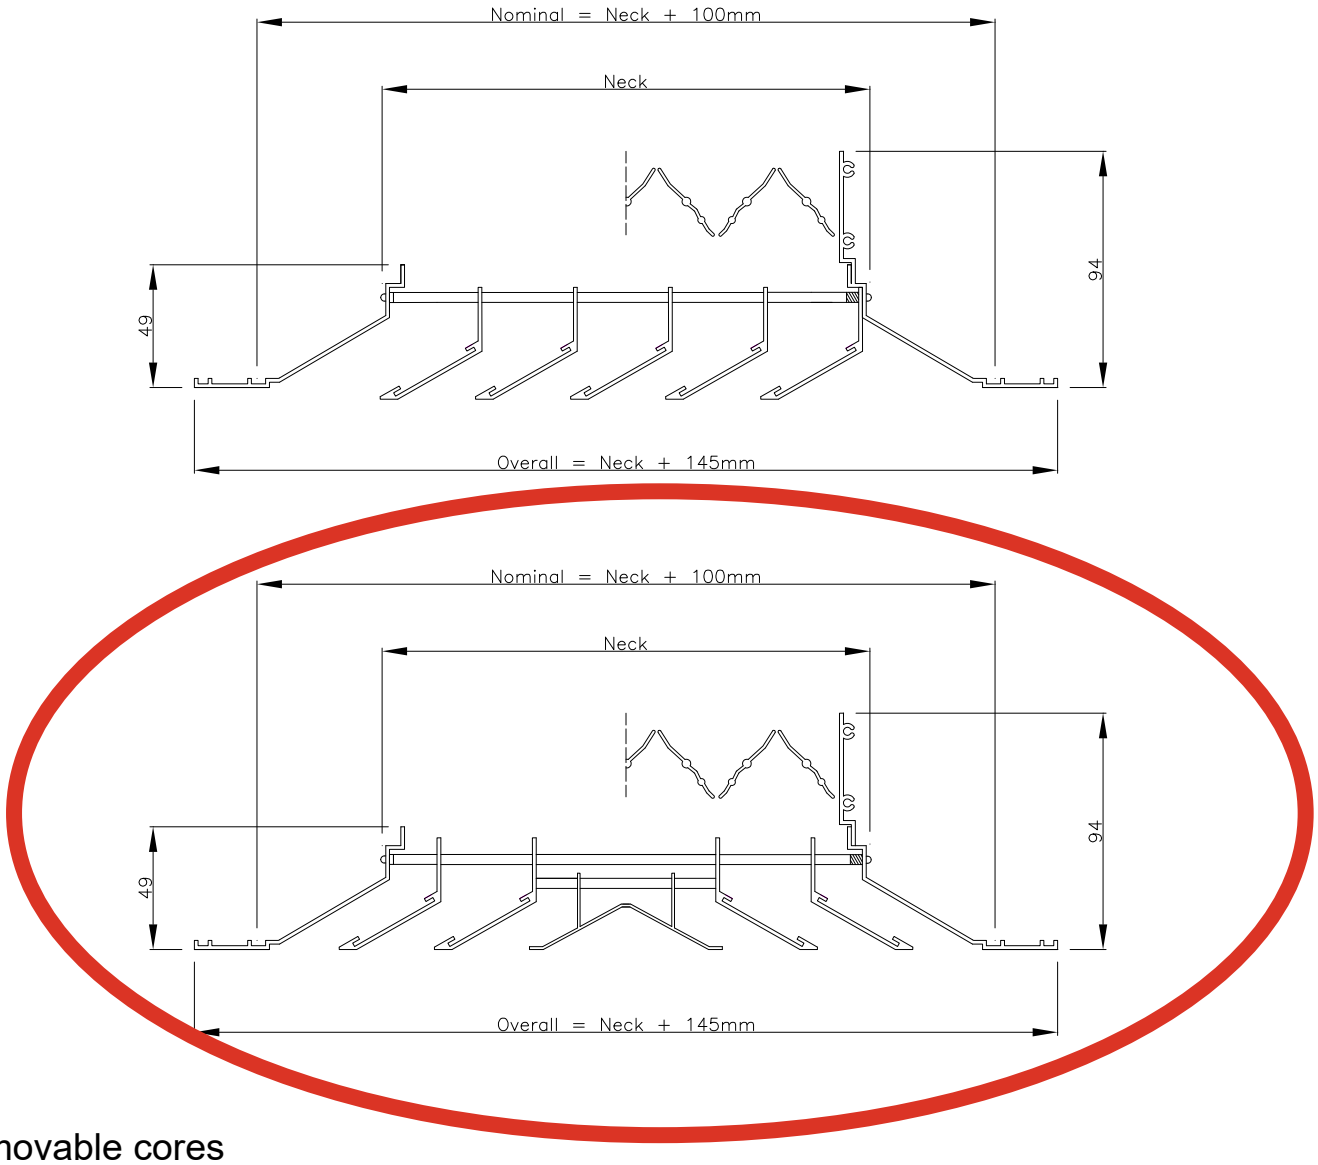

Material	Extruded aluminium frame and blades
Construction	Fully welded with pressed in corners in frames
	Blade rings crimped onto aluminium tubes
Sizes	Minimum: 150mm x 150mm
	Maximum single unit: 2900mm x 2900mm
	Important note: Unless stated Series CD diffuser sizes relate to the diffuser neck, not the nominal. Please see page 3 for more details.
Fixings	Standard: None
	Optional: Countersunk face fixing holes
Finish	Standard: Mill aluminium
	Optional: See page 18
	Stock units are powder coated RAL9010
Mass/m² face area	8.5 kg
	16 kg including opposed blade damper

Quality assurance

HVC Supplies (Stourbridge) Ltd is an ISO 9001 certified company.

Assessed to ISO 9001
Cert/Ref No. 1186

Removable cores

Series CD louvre faced diffusers are equipped with removable cores where the size in either dimension does not exceed 1195 x 595 O/A (1050 x 450 neck). Cores are removable by pushing the core to one side to compress spring pins.

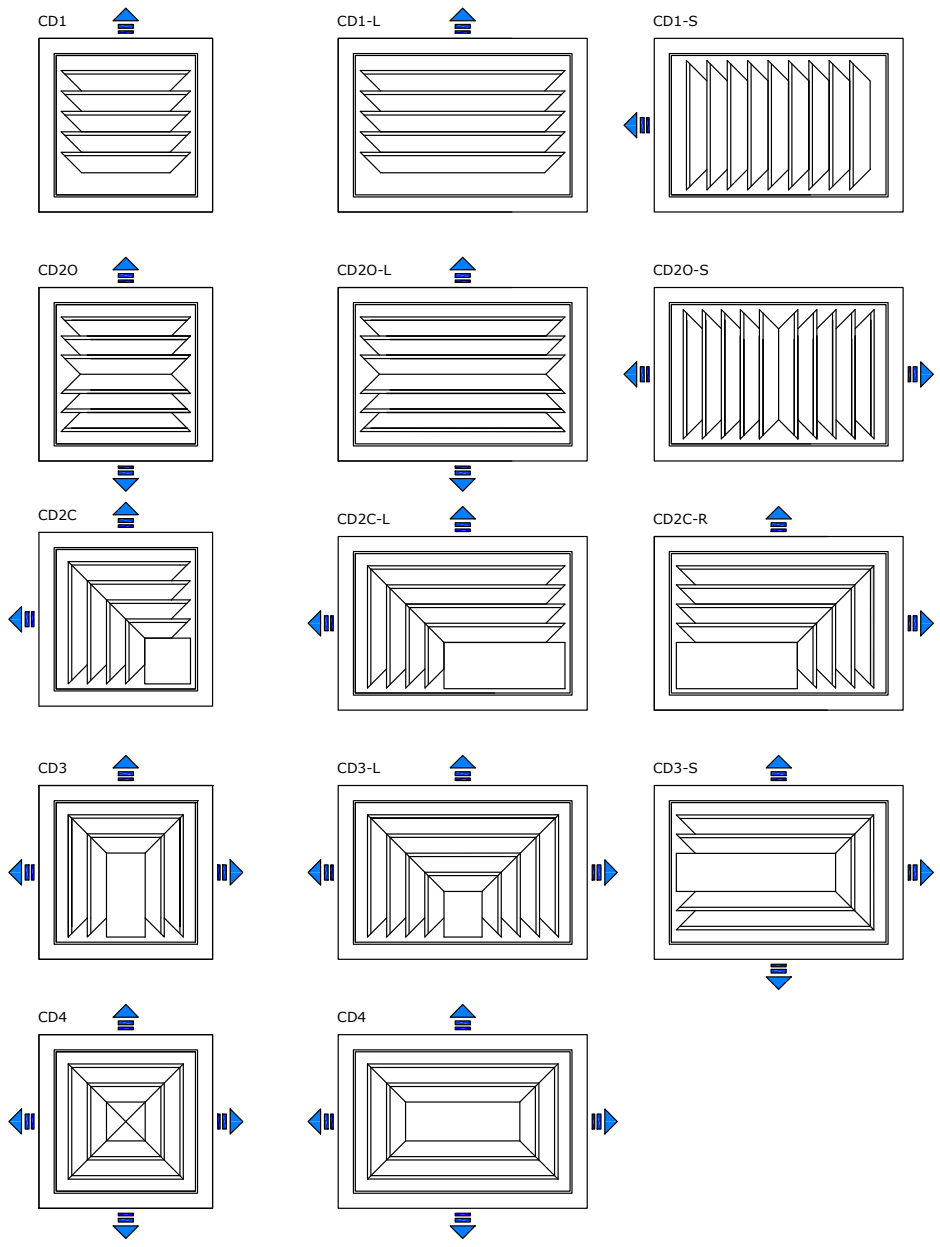

Above this size, cores will be fixed into the outer frame for safety.

All removable cores are equipped with safety wire to prevent the core being able to fall away from the outer frame entirely.

Core formats

Stocked sizes

The following sizes of Series CD4 louvre faced diffusers are held in stock, with and without fitted opposed blade dampers, and in RAL9010 finish, available for immediate despatch.

150mm²
200mm²
225mm²
250mm²
300mm²
350mm² (495mm² overall face size tile replacer)
375mm²
450mm² (595mm² overall face size tile replacer)

All sizes are neck unless stated.

Product codes: CD4 - RAL9010
(diffuser only)

CD4 - D - RAL9010
(diffuser complete with fitted opposed blade damper)

Options

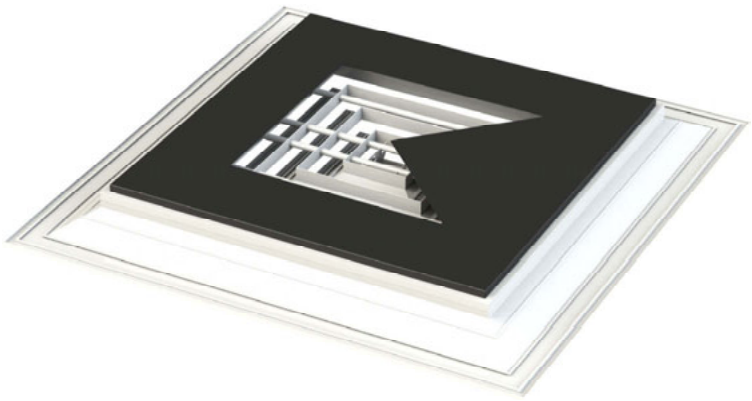

Neck reducer / blanking plates

Neck reducer / blanking plates are required when the necessary size and design of a unit does not match the required performance.

For example:

An installation demands the use of tile replacer (595mm x 595mm overall) size CD4 diffusers, but the actual required performance is closer to that of a 250mm x 250mm CD3 (3 way blow).

A blanking plate as shown here will be manufactured to the required size and pattern and will be factory fitted to the rear of the diffuser, giving both the required appearance and performance.

Fixings

Countersunk face fixing holes - FH

5.7mm countersunk fixing holes will be punched into the diffuser frame before powder coating, allowing quick and easy fitting on site.

Number and layout of fixing holes will be appropriate to diffuser size. Arrangements can be specified.

Supplied with pozidrive self tapping screws in the same finish as the diffuser.

Burgess tile - BT

The diffuser will be factory fitted into a burgess tile.

Fitting involves clipping the tile into place in a prefitted burgess clip system.

CD diffusers can be fitted into other ceiling tile systems. Please contact us for more information and to discuss your requirements.
