Oldham Road PH2 – service management

When residents move into their new homes, they will be advised that the local authority (MCC) will be responsible for waste collections. The residents will be advised by One Manchester on the day of the week that this takes place for their area, and where is appropriate for bins to be left.

If there are any issues with the bin collection services, residents will be advised to report this to the local authority.

Regular neighbourhood inspections will take place over each year with residents to identify any issues with bin collections or services. If anything like fly tipping is noticed as a result of bin collection issues, residents will be advised to report directly to One Manchester to allow for an action plan to be completed to address the issues.
