

Category A Tree Trees of high quality with an estimated remaining life expectancy of at least 40 years	The diagram is a site plan showing a residential development. A dashed line represents the 'MAIN BUILDING FLATS'. To the left of this line is a 'TARMAC SURFACE' and a 'GARDEN'. To the right is a 'PROPOSED NEW BUILDING'. Trees are labeled T1 through T6. T1 and T2 are Category A trees (green circles). T3, T4, T5, and T6 are Category B trees (blue circles). T1 and T2 have large yellow circles representing their 'Tree RPA' (Root Protection Area). T3, T4, T5, and T6 have smaller yellow circles representing their 'RPA'. A pink line indicates the 'Protective fencing location' (CEZ). A north arrow points upwards.		
Category B Tree Trees of moderate quality with an estimated remaining life expectancy of at least 20 years			
Category C Tree Trees of low quality with an estimated remaining life expectancy of at least 10 years, or young trees with a stem diameter below 150mm			
Category U Tree Trees in such a condition that they cannot realistically be retained as living trees in the context of the current land use for longer than 10 years			
RPA Calculated root protection area (RPA), depicted as a measured radius around a tree that should remain undisturbed during demolition and construction activity, a construction exclusion zone (CEZ)			
CEZ Protective fencing location
