Subject: 137227/FO/2023: Plot D Great Jackson Street - Additional Information

Hi Lucy,

I hope you are well. Please find below additional information in relation to the above Application (referred to as Plot D):

BNG Assessment

Please find attached the BNG assessment for Plot D this confirms a net gain for area-based habitats is not demonstrated by the on-site BNG Metric and the trading rules are not satisfied. On this basis the applicant is willing to provide a biodiversity payment with a habitat bank and a habitat bank has been approached.

Places for Everyone

Following the adoption of Places for Everyone, the project team has considered whether any amendments are required to submission documents for the Plot D application. All technical consultants have now confirmed that this will not impact the conclusions of their reports, save for Energy and Broadband Assessment. We have therefore attach:

- **Updated Environmental Standards Statement dated May 2024.** This replaces the previously submitted version and has been updated as follows:
 - Update to PfE planning policy section
 - Update to resi energy strategy to include an Air Source Heat Pump (ASHP) to provide hot water to each apartment
 - Revised energy calcs (SAP only)
 - Specific PfE chapter added to report
 - Notes on district heat network v the proposed 'full electric' energy strategy
 - Edits to Conclusion section to reflect the PfE policy alignment

The inclusion of an ASHP results in an improvement of 75.11% over Part L of the Building Regulations (2021) for the residential apartments. This is an improvement from the previous submitted strategy (without ASHP) which included a 50.52% improvement over Part L 2021.

- **Updated Broadband Assessment dated April 2024.** This replaces the previously submitted version. The policy has been updated in Section 1.2 and the wording amended to focus on Fibre To The Premise (FTTP) capability rather than Fibre To The Cabinet (FTTC), as per the requirement of the policy.

Cumulative Developments

The list of cumulative developments considered as part of the Environmental Assessment was agreed with the City Council as part of the Screening and Scoping Exercise. We are aware of the recent submission and validation of the Viadux application in the nearby vicinity of the site. All consultants have been asked if this would impact the EIA from a cumulative perspective. All consultants have now confirmed that this will not impact the conclusions presented in the EIA and no updates to chapters are required.

Please let us know if you have any queries on the above, or updated reports.

Kind regards,

Ed

Hi Ed

We agree the extension of time for the above two applications. I suggest we specify 19 February 2024 for the determination date, if you are happy with that.

Regards

Lucy

Subject: CSPh3 (- 137226/FO/2023) and Plot D (137227/FO/2023) - Request for Extension of Time

Hi Lucy,

Please can we request an extension to the determination period of these two pending planning applications, as the Applicant is considering the representations received to date and will be submitting a detailed response.

We currently expect the response will be submitted by mid December. To allow sufficient time for any further consultation that may be required in respect of new information, we request the determination period is extended to mid-February.

Please could you confirm receipt and acceptance of this request?

Kind regards,

Ed
