Waste Management Proposal

227-229 Great Western Street

Internal Waste management

The new dwellings will have a cup'd within a utility area in which 20litre containers

Will be stored .There will be 4No. Containers for glass, paper, cans and general waste

Bin Storage Area And Number Of Bins

The new dwellings has an area for bins identified on plan. There will be 2 No. 240 litre wheeled bins for garden waste and General refuse. There will also be 2No. 140 litre wheeled bins for paper and glass and cans

Access and collection

A level path without steps or hazards connects to the property frontage where bins would be placed by the occupier on a weekly basis for collection by the local authority.

Access for Refuse vehicles

Main Road is an established street affording easy access to the rear of the properties on Great Western Street where bins for collection would be placed. The rear access alley is secured by fixed gates and the bins are stored behind the gates and repositioned by residents for the day of collection
