Details of the pre-application advice received

We have a standing meeting in the museum with Jack Naven and Jackie Wheelan where we provided contextual information about the project, the security requirements and MEP survey. Then by email we provided specific details of the access control door magnet and the door in question. When we clarified that this wouldn't be visible externally and Jack confirmed these would be additions that could be supported. We discussed the MEP survey at a meeting in the museum and opening up that might be required. The feedback was to ensure that this was included in the listed building consent application and that the areas in question should be reinstated after the survey is completed.

(a) a member of staff

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
