Comment Reasons:

Comment: Dear planning committee members,

Planning reference: 143413/FO/2025

I wish to support the above referenced planning application for the following reasons:

Green space is massively beneficial to health and wellbeing. There are many houses being built around the chorlton area and other than the upcoming development in the center no additional green/public spaces. Removing a currently used green space in order to create more housing will be a negative for the area. Putting in work to enhance the current green space would be good for everyone in the area.

Yours sincerely
